FREE FROM DREAD OF CANCER NOW

Resident of Pleasant Hill, Ill., Says He was Cured by Dr. Johnson, Kansas City Specialist.

The cure of a cancer without the use of the knife is reported by Samuel Kelly, Pleasant Hill, Ill. He was treated by Dr. O. A. Johnson, eminent cancer specialist of Kansas City, Mo. In a letter to Dr. Johnson, Mr. Kelly says: "I am glad to say that the cancer on my lip was cured before I left your institution, and is still cured, with no indications of its returning, and I am free from that constant dread of knowing that I had a cancer. My health is good, and I will always feel grateful for the kind treatment and will always feel grateful of the kind nurses. It was October 3, 1916, that I came to you for treatment."

"You have my consent to publish my letter, and I will gladly answer anyone that wants to inquire of me in regard to your treatment and my cure." Dr. Johnson is today one of the foremost in the study of cancer. He conducts in Kansas City, Mo., a large, fully equipped Research Laboratory, and has treated many sufferers in the past twenty years. This treatment is entirely non-surgical, as the knife is not used at any stage. Purely medicinal measures only are employed; that is, external applications to destroy the cancer and internal medication to purify the blood. Hundreds of patients testify to the success of the Johnson Laboratory. "Cancer Truths," Dr. Johnson's book, will be sent free to any sufferer or friend. Delay should be avoided. Address, O. A. Johnson, Suite 565, 1324 Main St., Kansas City, Mo.

Bell System

Don't Forget to Replace the Receiver

Telephone users are urged to replace the receiver promptly at the end of every conversation.

If the receiver is left off the hook, either intentionally or accidentally, it completely cuts off your telephone from every other, and requires the operators to report to persons calling that your telephone is out of service.

By replacing the receiver on the hook at the end of each telephone talk, you keep your telephone door open and assist in maintaining good service.

From the Saxon. Wife and woman spring from the same source, both being derived from the Saxon "wefan," Danish "wove" to weave, one who works at the distaff. Dryden referred to Queen Anne as "a distaff on the throne." From the same idea springs our word spinster applied to an unmarried woman. While a woman was still spinning her wedding clothes she was simply a spinster; when she had finished and was married she became a wife who had already woven her allotted task.
