DELEGATES MET IN CONVENTION AT HINSDALE SUNDAY

Emmanuel Church Host to Evangelical Sunday School Workers of Southwest District

Delegates from Evangelical Sunday Schools of the "Southwest" district met in the Emmanuel church at Hinsdale last Sunday afternoon, April 24th for their annual conference. The district comprises the southwest part of Chicago, the cities of Aurora and Elgin and the towns in the vicinity of Downers Grove.

More than 200 Sunday school workers were delegates and many more attended. Prof. J. E. Schmale, of the Elmhurst College, acted as chairman of the gathering.

In the evening the Ladies Aid of the church served a wonderful dinner to those who attended.

There was wonderful progress in the work of the schools during the past year, shown by the reports. The work Sunday was the best that has been seen at these annual meetings.

A gloom was cast over the assemblage just before the delegates were called to order. The Rev. G. H. Stanger, pastor of the Hinsdale congregation, had worked hard and long to make the convention a success.

He is a man in his seventies and the work told on his age as he was taken suddenly ill while conducting several

of the workers to the parsonage next to the church. He fainted on the stairs, was carried to his room and put to bed and a doctor called. At first they feared for his life, but he recovered. Mr. Stanger is still confined to his bed and slowly improving.

The delegates from St. Paul's church here to the convention were: Herbert Grotefeld, Superintendent of the school, Mesdames B. C. Weatherbee, and Louis Schuetz and the Misses Laura and Clara Selig and Clara, Elsie and Emma Peters. Besides these there were twelve other members of the congregation in attendance.

A profitable transaction is one in which both parties are fully satisfied. All who have contracted, during this drive, for a Round Oak Ironbilt Furnace, are to be congratulated. Those who contract within the next two days, are to be congratulated, and this is why:

They have added to the value of their property more than the amount invested in the purchase. If this fact seems too good to be true, let us present the evidence.

They have under-written the safeguarding of the health, comfort, vitality and well-being of those that are near and dear to them, every week, every month, every year for a generation

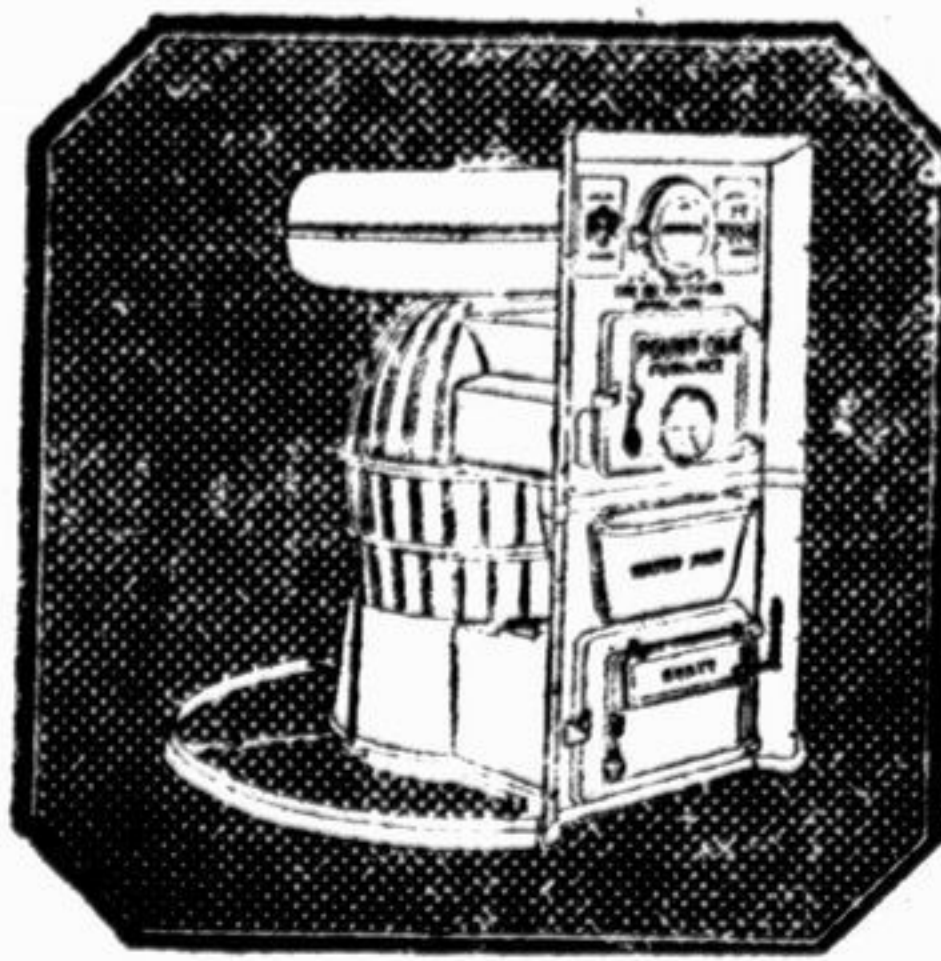

or more. If this seems in the least exaggerating, let us present the evidence.

They have contracted at the lowest possible investment for 1921. We will lay before you conclusive evidence that its true.

They will have their system installed at the time they desire. Only by contracting now could we assure home owners of this desirable service.

They will receive all the benefit of the experience of trained Round Oak Heating Engineers, without expense. This service is most valuable and to be desired.

ROUND OAK IRONBILT FURNACE

PATENTED GAS AND DUST-TIGHT CONSTRUCTION

And it's Practical Economy you are also Safeguarding

Ten minutes of undivided attention to the construction of the Round Oak Ironbilt Furnace will make clear why it is more economical with all fuels—why, because of its bolted construction, patented features, it cannot possibly leak, smoke or gas—why its oversize parts make for long life and durability, also assure their freedom from the expensive replacements, usually called repairs.

When it is possible to safeguard your best interests, we feel we would be doing you an injustice if we do not insistently urge immediate investigation of all the evidence at the ear-

liest possible moment convenient to you. If it is not opportune for you to call, if you will phone us, we will have one of our representatives wait upon you at any time and place that you may determine.

We would much prefer to have you an enthusiastic user next Fall than a disappointed prospect.

We are persuaded that there will be a shortage—possibly an entire lack—of these heating systems later. The knowledge that we have your size in our warehouse at the present writing further emphasizes the expediency of arranging an interview. Could we say more? Surely the next move is yours.

This offer is for immediate acceptance when your investigation affirms the facts
