We have received a copy of the July Fourth "World News by Radio," issued on the S. S. President of the Admiral Line enroute from Seattle to San Francisco. LEGION REQUESTS HELP FOR LEGISLATIVE PROGRAM

Asks Citizens of Du Page County to Write Representatives About Various Bills.

The Legion's fight to gain the passage of its national legislative program has reached a point where the National Legislative Committee calls for the assistance of all Posts.

The Legion organization of Du Page County appreciates the loyal, dependable support that the people of this county have given it not only during the war but in the days of reconstruction since, and in this knowledge feels that its people will not rail it now.

The Legion's fight for justice for the veterans is no longer measured in terms of months but now by years. In spite of country wide publicity on the shameful, pitiable condition of the disabled, powerful influences are opposing the legislation that while possible not perfect, will bring substantial and widespread and imperative relief.

Organized farmer's interests represented by the American Farm Bureau Federation last week went on record as favoring the legislative program of the American Legion for relief of wounded and disabled veterans.

The press of the country demands that the federal government speed the work of relief for the wounded veterans of the world war.

The adjusted Compensation Bill (H. R. 1) designed to equalize the financial losses of those who served in the war is a measure of admitted justice.

It is not believed that the bitter and powerful opposition of the interests who profited most by the war will be able to sway the rank and file of our citizens from their desire to see common justice done its fighting men. This is proven in all of the states where the question of compensation has come to a vote; the people have overwhelmingly endorsed it.

Every citizen of DuPage County who desires the opportunity of helping the service man fight his battles of reconstruction can do so by writing our United States Senators and our Representatives in Congress to support and pass the following bills:

The Sweet Bill (H. R. 6611) to establish one central government bur-

eau to deal with ex-service men.

The Langley Bill (H. R. 6263) providing methods for the spending of \$18,600,000 for hospital construction. H. J. Res. 30 to give ex-service men 90 day priority in entering public lands opened for settlement.

S. 1565 giving disabled emergency officers the same retirement rights as disabled Regular Army Officers. The Kenyon Bill (S. 1439) to open privileges for vocational education to great numbers of veterans not now entitled to them and to widows and orphans of service men who gave their lives.

The Adjusted Compensation Bill (H. R. 1) designed to equalize financial losses of those who served in the war.

Within a few months three years will have passed since the Armistice and the Legion is still fighting to get bare justice for the ex-service man—hasn't procrastination gone far enough?

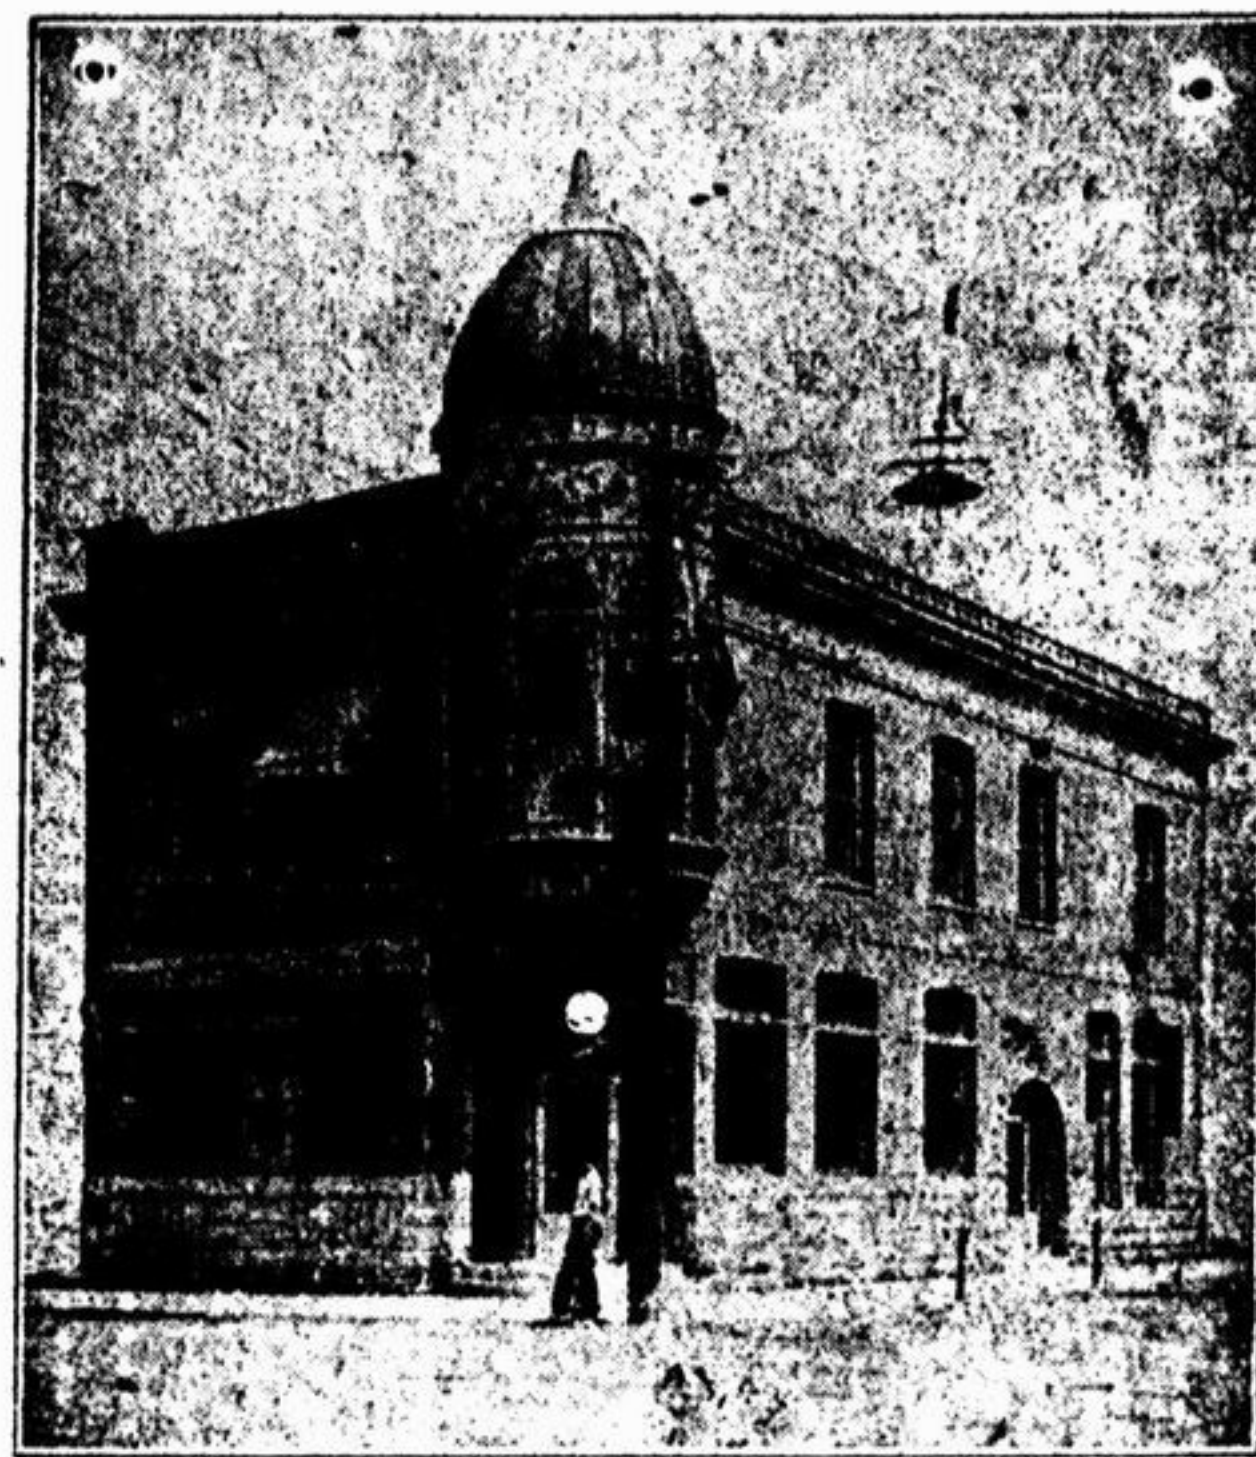

Here's your opportunity to stand four square back of the man who stood four square back of you.
