

GET IN LINE TO HELP THE LOCAL SCHOOLS

During the past week the following citizens have visited the Hinsdale schools to see what was being furnished in the way of plumbing equipment: Mesdames J. L. Remmers, H. S. Paine, M. H. Prince, W. J. O'Neill, Charles Kolm, F. C. Lancaster, A. R. Whitehorn, Mr. W. D. Herrick and our new Superintendent, Mr. John Reed. All came back inspired with the flawless condition of the equipment.

It has been decided to raise by voluntary subscriptions \$750, so that the following work may be done. Install seven new units, four at the south side school and three at the north side school. The units cost approximately \$90 each, and the bowls will cost perhaps \$35 each. Mr. Herrick has promised for the Board that they will put in new floors, and tear out all the old work, install electric fixtures in all the lavatories. The electric fixtures in the ceiling are considered an absolute necessity, especially on dark winter days.

The Ladies of the Committee are also striving to place new mirrors in the lavatories and furnish simple rest rooms for the teachers in both buildings, reframe some of the pictures that need it, and renew some of the curtains, etc. These are small things but they will add to the attractiveness of the buildings, and have a good influence on the minds of the children. They have already laid a new floor in the vestibule of the south side school, at a cost of \$20 for the labor.

The response of the citizens is very generous, as we have subscriptions in hand of more than \$350, and most of those contributing have offered to double their subscriptions if it is found necessary. It is unfortunate that some of our most public spirited citizens are away on vacations, but we trust that if The Reporter reaches any of them, they will cut the vacation short one day and donate the expense of the day to this fund.

If it is impossible to get the money locally, it has been suggested that we appeal to the more than four hundred alumni of the local school, because we know that there is not one of them who would not give \$1 to such a worthy cause, when the pride of the alma mater is at stake.

A public acknowledgement will be made of all subscriptions, before the close of the drive, but at present some of the subscriptions are cash and some are not, so that a list would be a little confusing. Bear in mind that the work must be done and paid for by September 4, so that the new year will open "clean and sweet."

ALICE M. PAINE.

HOLSTEIN BREEDERS WANT STATE TESTING PLANT HERE

Jarvis Hunt Host to Cattlemen at Wheaton When Proposition is First Explained.

On the evening of July 15th the breeders of Du Page County, Illinois, were the guests to dinner at the Chicago Golf Club at Wheaton, of Mr. Jarvis Hunt. A splendid five course dinner was served, consisting of vegetable soup, lobster, roast beef, salad, ice cream and smokes.

The banquet was given in honor of Mr. Hunt's grandfather, Hon. Wm. Jarvis, of Wethersfield, Vermont, who in 1810 imported among the first Holstein brought to America. Cattle from these original importations, Mr. Hunt says, are still on the old farm in Vermont.

The purpose of this meeting was to discuss ways in which the breeders of DuPage County could co-operate with the State Association in procuring the State testing plant at Wheaton. This is one of the projects of the State Association which will enable any breeder to have all the fat records possible in a year put on his cow under expert care and management.

Mr. Hunt offered to lease his beautiful place, located in the edge of Wheaton at a nominal sum and the breeders pledged themselves to raise eight thousand dollars toward the equipment of the plant.

At the close of the meeting the breeders decided to send a county show herd to the State Fair at Springfield.

The meeting was presided over by the county president, A. W. Fischer, of Bensenville. The speakers were Mr. George Fox, President of the State Association, C. M. Long, Field Secretary and several local breeders. Three breeders present agreed to subscribe one thousand dollars each of

the eight thousand. The DuPage County Farm Bureau assisted in creating the local interest, and the fine spirit of progress and cooperation manifested by those responding made the meeting one of the best that could be desired.

Have Competition.
The breeders and business men of Lee County, Illinois, requested C. M. Long, Field Secretary, to meet with them to discuss the possibility of their obtaining the State Testing Plant at Dixon. There is a fine sale pavilion here with additional barn space. They agreed to enlarge their barn to meet the requirements of the State Association and will have a committee at the next meeting of the State Executive Board with an attractive proposition.

What the Plant Will Mean.
It will serve as a great impetus to the Holstein industry here. It will bring fifty of the best Holsteins in the State to this county. This being the first plant of the kind ever established by a State organization, it will focus the attention of not only the Holstein interests, but that of the entire dairy world on our county. Many of the leaders of dairy progress will visit Wheaton to inspect the plant and the agricultural press will give it wide publicity.

The further fact that the Association will place here one of the outstanding bulls of the breed will be of great importance to our breeders who wish to improve their herds.

It is probable that the state sales will also be held here annually if the plant comes here. Likewise the State Field Secretary will make his home in Wheaton. In fact the locating of the plant at Wheaton will make us the Holstein center of Illinois.

CARD OF THANKS

We wish to thank our many friends for the many kindnesses, for their sympathy and for the floral offerings during the sickness and after the death of our loving husband and father. Mrs. Reider and Family.

We always have it FRESH and PURE

Many drugs lose their strength if they are kept too long. We buy such drugs in very limited quantities in order to insure their freshness.

We compound our drugs with absolute accuracy, thereby giving you the best possible results.

Thus, throughout our store we strive at nothing short of perfection.

Our rubber goods are made of real rubber.

COME TO US FOR IT.

LAST OF WHIFFEN ESTATE PROPERTY HAS BEEN SOLD

Edward G. Lemon & Co. Cleans up Tract in Sale of Main St. Lot to Ray McColium.

With the sale by Edward G. Lemon & Co., of the Whiffen lot on North Main street to Ray D. McColium, the last of the property comprising the Whiffen estate has been sold, the old homestead on Whiffen place between Washington and Elm streets having been purchased about a year ago by George Zetterberg and the five lots, two fronting on Washington street and three on Elm street having been purchased a few months ago by Edward G. Lemon, for building purposes.

Mr. Lemon is now building a modern five room stucco bungalow to cost \$5,200 on one of these lots for Floyd O. Rouse, who formerly lived in the Whiffen house, and has sold one of the Elm street lots and has a contract for building a home upon it for

Walter Frazier, of Chicago. Mr. Frazier's contract calls for a modern garage building 20x16 feet in size, on concrete foundation and magnesite stucco exterior walls to match the house which will be built later. The garage will be used as a temporary residence and will be divided temporarily into living room, kitchen, bedroom and bathroom, the latter to be plumbed and fitted complete, the same fittings to be used later in the permanent residence. The cost of the garage complete with plumbing will be \$1,500, the lot (51x200 feet in size) \$600 and the house to be built later, \$6,000.

Preserving Mine Timbers.
A coating of magnesia cement on the timbers of mines is stated to be an economical and efficient assurance against fire, especially in the arid regions where the timber becomes highly inflammable and is difficult to replace.

WRITES INTERESTING LETTER

A very interesting letter has been written to The Reporter by F. J. Milnes taking exception to some of the things said last Sunday evening by Judge Gemmil at the union open air services. We are very sorry that we have not space enough for its publication this week, but assure our readers that it will appear next week.

GLACIER National Park

THE GLADDEST SPOT

—the most-talked-of place in America by out-of-doors folk, is a "hikers' " and horsebackers' " joyland.

Up there in the Northern Rockies in Northwestern Montana, there are fifteen hundred square miles of breathing room—loafing space; forests, hundreds of sparkling streams which meander through valleys ablaze with wild flowers, and tumble over foaming waterfalls to feed two hundred and fifty mountain lakes of rare beauty. In the "high-spots" there are eternal, slow-moving glaciers, astride the pageant of carved and tinted peaks. The thrill, the majesty, the bigness of it all is wonderful. To live for a time in this "high" land is a never-to-be-forgotten experience.

If you are a fisherman, you'll enjoy battling with the trout.

You'll straightway develop an amazing appetite.

If you are a hiker, there's no end of trails to follow to your heart's content.

If you love to ride, a sturdy little mountain pony will carry you over skyland trails.

Mountain guides—chaps you'll enjoy getting acquainted with—are there to accompany the timid.

Rowboat and launch service, auto-stages on a mountain motor highway, are there for your pleasure and convenience.

If you like to "take your hotel with you" and camp, there are scores of ideal spots.

The chalets—little hotel villages in the mountains—are picturesque tarrying-places.

Two mammoth mountain inns, where unique indoor campfires crackle on evenings in the "forest lobbies" provide accommodations of a more elaborate character.

The whole scheme of service within Glacier readily lends itself to the out-door idea—follow the dictates of your fancy.

Plan to go this summer and enjoy a REAL vacation.
