CLEANLINESS AND BEAUTY

What has happened to the village of Downers Grove in recent years? At one time it was considered one of the cleanest and most beautiful villages along the Burlington Road—but now? Have you noticed the dirt, scrap paper, orange peels, etc., on the sidewalks and streets as you walk through town? On your way to the Post Office you are obliged to wade through a conglomeration of filth. Orange and banana peels are thrown on the sidewalks, which is not only unsightly and unsanitary, but dangerous to pedestrians.

So much for the cleanliness; now for the beauty. In former years it was always the custom to have the fountain at the depot in use during the summer months and the parkways around the depot were well filled with flowers. It was with pride that residents of the village would listen to comments of visitors on the beauty of the well kept depot grounds.

Our streets were swept and sprinkled at regular intervals, which went far to keep the village cool in very hot weather. A street sweeper and sprinkler were purchased for this purpose but have not been used for

a long time. What has happened to them?

Then, too, our village has always been noted for its beautiful trees. Has anyone stopped to notice the present condition of the trees, particularly those along Maple avenue? It has taken years and years for the trees to attain their present size and care should be taken of them.

Cannot something be done soon to keep our village clean, start the fountain and set out flowers around the depot, as in former years, so that the residents do not have to feel ashamed when visitors come to town? Let us make an effort to regain our reputation of being the most beautiful along the "Q."
