Animals Fond of Fish.

The assertion by White of Selborne that all quadrupeds which feed on fish are amphibious is erroneous. No one would regard the dog as an amphibious animal, while as for the cat, it is well known to be the one quadruped above all others that hates even wetting its feet.

Cuba's Varieties of Hardwood.
Cuba has about 367 varieties of excellent hardwoods. Besides mahogany, and cedar, there are about thirty species of palm. The royal palm is probably the most useful tree on the island, every part from leaves to roots being used for various purposes.

I MET THE RAIN

Louise Driscoll
I met the rain today in an open place,
The young rain, adventuring, she
Danced as she came along,
Her dress was all of silver, she had
A smiling face,
And she sang to the dusty trees a
Little song.

Her feet were small and she trod on the grass and bent it,
She carried a scarf of mist that brushed my cheek.
She shook an odor out on the wind to scent it,
She bent to the barberries and I heard her speak.

I saw the rain go by a little girl with laughter,
But I will never tell you the word she said.
That you must hear yourself and forever after
Know how the leaves and grass are comforted.

I stood at a bend in the path and the rain went by me,
I could see, like a skein of silk, her shining hair.
She passed with a little smile to satisfy me,
For all the while she knew that I was there! —Smart Set.

Muzzled.

Speaking of garters, have you heard of the Harvard students who spied a pair with silver clasps in a Harvard Square shop window, and, thinking to raise a snipe, at least, from the character at the counter, asked the price of a dog-collar, pointing at the same time to the silver-clasped garter? She turned, looked sweetly at the young men, and said: "We do not separate them for puppies, sir." —Boston Herald.

Apt Description.

Florence was told to sit on the front steps and not to go away. A neighbor of ours who wore heavy shell-rimmed glasses was very fond of her and happened to pass by while she was sitting there. He stopped and spoke to her—at the same time producing a bag of candy. Running into the house she exclaimed: "Oh, mamma, look what I got from the opera glasses man." —Chicago American.

The Folks Next Door.

On what ocean is Callao? What language do they speak in Montevideo? What is the big port of Argentina? Where is Quito? How does Rio de Janeiro compare in size with Richmond, Va.? Is La Paz a mountain or south of Buenos Ayres? Is there a law against automobiles in Peru? Do they have snow in Brazil? If so, when? Why do they speak French in Ecuador? Or do they? Try these questions on a business man.—From Collier's.

Exasperating.

Two things that try a woman's temper are, to get ready for company that doesn't come and to have company come when she isn't ready.

The New Buick Four

The new Buick Four is a distinctively Buick creation in every feature of design and construction. It embodies those principles of construction that have characterized Buick automobiles for more than twenty years.
The engine is of the famed Buick Valve-in-Head type. The bore is 3 3/8 in.—the stroke, 4 3/8 in. Wheel base, 109 in., turning radius, 36 feet.
A Marvel carburetor with the new automatic heat control.
Multiple disc clutch, the transmission and universal joint are of standard Buick construction—the universal joint being lubricated from the transmission.
The rear axle is the three-quarter floating type, with semi-elliptical type springs—front and rear. The frame is a deep channel section, strongly reinforced with four cross members.
High pressure Alemite system. Delco equipment with Exide battery.
All models have non-glare headlight lenses—all are complete with tire carrier and extra rim. Closed models are equipped with adjustable windshield visors, windshield cleaner, dome light, ventilating windshield, adjustable windows, and sun shade in rear window.
