## WORK STARTED ON ADDITION TO PARISH SCHOOL

Expect Completed Structure Will be Ready for Opening in September.

Work on the addition of St. Joseph's school was begun this week and it is hoped that the completed structure will be ready for the children when lessons are resumed about the middle of September.

The addition which will contain one large school room will adjoin the present school building on the west.

The whirlwind campaign for funds was conducted on schedule time and the returns made it possible to begin construction in time to have the use of the building for the fall term.

The books, however, are being kept open to accommodate a number of subscribers who, for various reasons were unable to send in their quota during the two weeks campaign.

Downers Grove Garage Signs Contract for Batteries in This and Adjoining Towns

Frank Hawkins, of the Downers Grove Garage, has signed a contract with the Westinghouse Co. the largest manufacturers of electrical equipment in the world, as their authorized agent here for automobile and other electrical storage batteries. The contract covers the territory of and around Downers Grove, Hinsdale and Naperville.

Mr. Hawkins says that although this company has been in the auto storage field but two years, already their reputation for making the best on the market is bringing them new business every day. THE UNIVERSAL CAR

There are more than 3,000,000 Ford cars in daily service throughout the world, and fully eighty per cent of these are Ford Touring Cars. There are many reasons for this, not the least of which is the simplicity in the design of the car, so easy to understand; likewise it is easy to operate; and mighty inexpensive compared to other motor cars. On the farm, in the city, for business and for family pleasure, it is the car of the people, and the demand is increasing every day. Let us have your order promptly if you want one.
