"Thy word have I hid in my heart, that I might not sin against thee." Psalm 119:11.

For Dark Woodwork.

The best way to clean dark-colored painted doors and woodwork is to take a pail of clean warm water and pour a little paraffin into it and then wash the paint all over, working downward with a piece of old Turkish toweling. Next, dry with a piece of clean cloth and polish with a substantial duster. To attempt to clean such paint by hard rubbing is a mistake. It does not need it and will only be rubbed away.

Wasted. Small Boy—"What's the use of washing my hands before I go to school, mother? I'm not one of those who are always raising them!"—Cartoons.

Velocity of Blood. The velocity of blood in the veins is least in those of smallest diameter, this being the reverse of the rule in arteries.

They're Smart. "Tell 'em nothing, eh? What about that advice in managing w's?" "It won't work. What you fall to tell 'em, they guess."—Louisville Courier-Journal.

Good Advice. "When some one heaves a rock at you," said Uncle Eben, "don't was't time heavin' it back. Keep climbin' an' use it for a steppin' stone."

It Can't Be Done. It is all right to say exactly what you think. But you are going to spend most of your time in the hospital. —Chickamaul Equipter.

Deductive. "Pop, what is a tentative performance?" "It's one of them open-air shows, sonny."—Baltimore American.

Many Do. One way to "relieve congestion in the post office" is to let your correspondents' letters answer themselves—a method which has much to recommend it.

Had Enough of That Kind. "As a skilled laborer," said Uncle Eben, "I'm entitled to a ledger, but I'd rather go without than have any one such successful crup-shooters as de last one."

Simple Solution. "Sages tell us that the best way to get the most out of life is to fall in love with a great problem or a beautiful woman." "Why not choose the latter and get both?"—Amherst Lord Jeff.

Use for Ultra-Violet Rays. For some years ultra-violet rays have been used for sterilizing water, milk and other fluids. The idea has now been applied to the disinfecting of barrels and casks.

Derivation of Custard. Custard was a corruption of a middle-English word meaning a pie or tart and was allied to the modern French word croutelette of the same meaning. All these words came from the Latin crusta, meaning a crust.
