

PERSONALS

Mr. and Mrs. S. A. Dexter and family returned last Friday from a trip through the east by river. In all they made over 3,000 miles, visiting relatives in Providence and Wooster, R. I., and talking in the points of interest, such as Niagara Falls going and coming back. They drove about eight hours a day and then camped for the night. It took seven days going down and eleven coming back.

After a vacation of several months, the First Evangelical church choir has been reorganized. Several new voices have been added and it is believed that it will soon be rendering very efficient service. Mrs. Charles Haller is the organist and Mr. J. L. Lehmann the director. This organization will supply the music for the services of worship every Sunday morning at the First Evangelical church.

Capt. R. D. Parker will lecture tomorrow, Saturday, evening, before the Spiritual Club in Room 613, Masonic Temple, at 8 p. m., on the subject "The Origin of Modern Spiritualism." On next Tuesday evening, September 13, he will lecture on "Zoroaster," the psychology of physical and mental training in the tenth floor hall of the Fine Arts building, Michigan avenue and Seventh street. Anyone interested is invited to go and hear him.

William Waples, who is working for an oil company at Filer, Ky., and his brother Edward, an employe of the same firm at Oil Spring, Ky., arrived home last Saturday for a ten-day visit with their mother, Mrs. Rose Waples, of Prince avenue, and other relatives and friends in the village.

Wednesday, September 14, 1921, the fiftieth wedding anniversary of Mr. and Mrs. S. A. Cox will be celebrated by an open house from 3 to 9 o'clock at the home of Mr. and Mrs. H. W. Brookings, the old Morrell Fuller home at Fullersburg. All of their old friends and neighbors and especially the members of the G. A. R. post and their wives are cordially invited.

Extra copies of last week's Reporter, the first Annual School Opening Number, can be secured at the office of The Reporter or at J. L. Swearingen's News Agency. They should make a fine souvenir of Downers Grove to send to friends or relatives living elsewhere. Copies can be secured at 5 cents each.

The Ladies' Aid Society of the Congregational church will meet Thursday, September 15, at 1:30 p. m. in the church parlors. The hostesses will be Mrs. Frank Harper, Mrs. T. F. Kelly and Mrs. Harry Darnley. A cordial invitation is extended to all members and friends.

BROKEN TREES MARK PATH OF SUNDAY CYCLONE

(Continued from page 1)

chained and dragged to each side of the street as if they were matchwood.

Along with the firemen, working with them in the clearing of the street, was a large gang of volunteer workers. Five to twenty men on a large branch and off the street it would go. The Graves family kept hot coffee handy on their front porch, many availing themselves of the invitation to partake.

Lights and Phones Out One of the worst features of the storm was the sudden cutting off of the electric lights in the north part of the village. The first gust of wind, being the worst, tangled up the wires, making it imperative that the current be cut off, as the danger from live wires was great.

The south side was fortunate inasmuch as the wind missed it almost entirely and no wires were down anywhere.

New House Wrecked A ready outhouse on Elm street, the property of Walter Bolde, of Chicago, in the process of erection, was wrecked by the wind. It was twisted all out of shape, blown off the foundation and the cement blocks above the ground scattered around. Here the twisting force of the wind can clearly be seen. Luckily he had

tornado insurance through E. G. Lemon & Co., and the adjusters were here two days later fixing the loss.

That no houses were blown over can be attributed to the fact that the twister did not reach the ground anywhere in town. It dipped here and there, catching the tops of the trees mostly. This can be seen on Highland avenue, where most of the trees trunks are still standing with their tops sheared off.

The Storm Elsewhere Downers Grove was hit hardest so far as we have been able to find out. Several places in the country trees and telephone lines were blown over, but none as bad as here. At Westmont a packing box shack was demolished and the roofs blown from two buildings.

At Western Springs a few trees were down and also at Hinsdale, LaGrange Park, north of LaGrange was hard hit. Trees were blown over, several garages were down, and here and also at LaGrange there was absolutely no light. The territory served by the Northern Illinois Public Utilities Co. and current was cut off immediately after the storm.

South of Naperville several pieces of damage has been reported and reported. How far we are knowing no lives were lost and no one injured by the big blow.

OLD TIME DANCE AT LISLE NEXT WEDNESDAY EVE

Quadrille, Waltzes, Two Steps, to Old Time Music, Plan of Milk Producers.

Those who like the old fashioned dances; who do not dance the new ones, and wouldn't if they could; will make merry at Ed. Riedy's grove south of Lisle next Wednesday evening, September 14th. The Milk Producers Association, who have been giving the picnics and dances there the last few weeks are planning the affair.

There will be no charge made for the dancing, simply a collection to help pay the expenses. Old fashioned music will be played for those who will step around in the quadrille, the old time waltz and two step.

MUST HAVE GOOD EYE - SIGHT FOR NEW PHONE BOOK

First Directory Since Last December Includes All the Suburbs West of Chicago.

The new telephone directory was distributed last week, and it had a strange, new face. Old friends had difficulty in recognizing it. "Telephone Directory for West Suburban Exchanges" is the title of the volume. It has 98 pages. By reducing the size of the type the number of names listed is much larger than in the old. A bright light and good eyes are necessary to read this interesting book on facts, by perceiving the patron may get the number he wants.

By including thirty-two exchanges including those on the Burlington as far west as Hinsdale and on the Northwestern as far as Wheaton, the telephone company apparently has worked an economy and it may be at times a convenience to the public, but the fine type and inclusion of so many suburbs is quite objectionable.

Furnishing telephone directories is one of the duties that makes company executives no money at all. What ever is done appears to be done as some part of the public. New York had had to cut its city telephone directory into various sections and so does each telephone is a book case.

similar to that in which encyclopedias (\$1 down and a dollar a week the remainder of one's life are delivered.

In the new directory there is nothing to indicate when tolls will be charged for. If the subscriber does not know when a toll is to be charged his bill comes in.

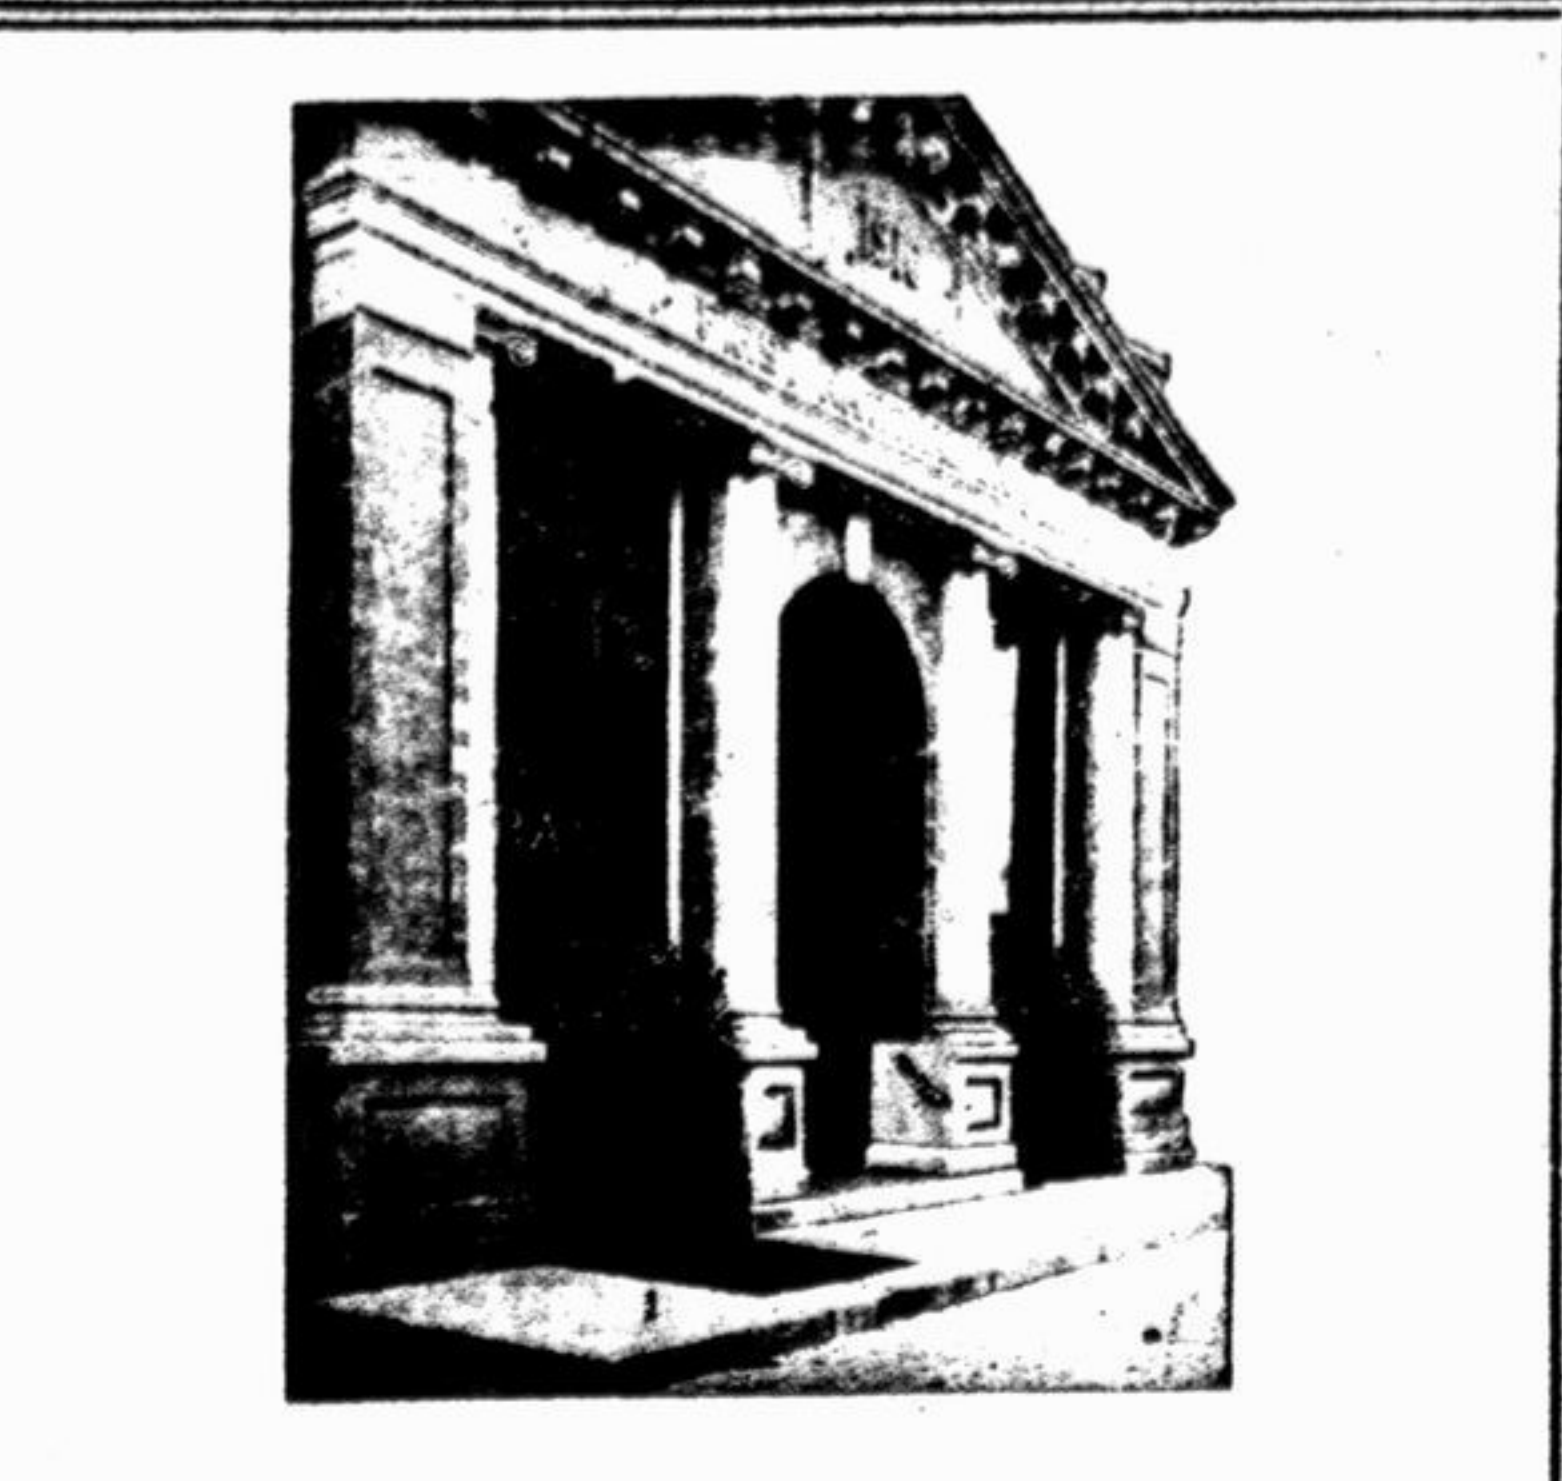

The district manager said the public would find the new book convenient and of greater service than the

old one. With 32 exchanges listed in the one book we fail to see this. Many are confused by the change in the directory system of the telephone company. A large book is issued for Chicago, but it does not contain any suburban numbers. A suburban book is published, giving all telephones in all suburbs, and then there is the West Suburban Book. All three books are necessary for complete information for calls in Chicago and suburbs.

This Years Most Popular Book is a Savings Passbook in this bank. It doesn't cost you a cent to get one, yet it may—probably will—prove the stepping stone to success.
