LEGION MAKES NATIONAL APPEAL TO AID THE JOBLESS

From 600,000 to 700,000 Veterans of the World War are Out of Work. From 600,000 to 700,000 veterans of the world war are out of work. The Legion through its national legislative committee has issued an appeal to employers throughout the country to loosen their purse strings lengthen their vision and make jobs for the men who kept American business safe from German indemnity. A careful study made by the organization in sixteen states indicates that there are 150,000 veterans out of employment in Pennsylvania; 100,000 in New York; 35,000 in Illinois; 30,000 in Massachusetts; 10,000 in Minnesota; 7,500 in Washington; 2,000 in Arizona, and from 5,000 to 20,000 in all of the remaining sixteen states under survey. In a number of states veterans' relief laws, originally enacted to help needy civil war veterans and amended to apply to world war veterans, are enabling unemployed ex-service men to obtain the bare necessities of life; that in other states where no such legislation has been passed American Legion posts are stripping their treasuries of their last dollars to keep "bread in the mouths and clothes on the backs of needy comrades." Today more American veterans that fought at St. Mihiel, more American veterans than composed the 1st American army, compose America's army of unemployed. "Six hundred thousand jobless veterans men of Chateau Thierry, St. Mihiel and the Argonne, men of the ships that braved the U-boats, men who dropped their tools and their ledgers to take up the grim new trade of war in far flung American continents, are walking the streets of our towns and cities wondering where the next meal is to come from. "The American Legion believes that had Congress passed the adjusted compensation bill, the present serious condition would never have come about, at least not for the veterans of the war." The Legion has asked for representation in the nation-wide conference on unemployment soon to take place and whether or not it secures representation will present to the conference a vast amount of material and data it has gathered on the unemployment situation.

The story, by George Weston, appeared in the Saturday Evening Post not many months ago under the title, "The Open Door." It is a whimsical little tale - half serious and half funny - dealing with the tribulations and ultimate success of a young American office employee, who, fairly accused, barely escapes a prison term on a charge of theft. Willford Vastover, who is finally shown among photoplay posters, has the principle formula of the picture effectively levelled.

"Dangerous Curve Ahead" shows them to you cleverly, lightly, yet with a deep insight into human hearts. It is a picture that lives. It is something refreshingly new in the art of the screen.
