BUSINESS MEN'S NIGHT AT MASONIC LODGE A SUCCESS

Many Craftsmen Observed Business Men Exemplify Third Degree Last Friday Night.

"Business Men's Night" last Friday, November 4th, was one of the most enjoyable evenings the Craftsmen of Grove Lodge, A. F. & A. M. have ever attended. The idea of John B. Jenkins, Master of the Lodge, could not have been improved on. Starting with a supper at 6:30, served in their usual excellent manner by the women of St. Andrew's Church Guild and Auxiliary, the evening progressed very successfully to the climax which was the conferring of the third degree by the business men of the village.

After supper the members adjourned to the lodge room where a program of music and "poetry" was enjoyed. The "poetry" was a brain child of Chas. Knoblauch. He said pleasant things about the business men of the village in rhyme. Afterward B. E. Balezynski, chairman of the committee called on each one to defend himself from the charges of the poet. This they did in a manner both original and witty, their sallies bringing down the house several times.

No officer of the lodge took any part in the conferring of the degree. This was done entirely by teams made up of business men and they did excellent work.

Those who took part were:
Chas. C. Parks, Worshipful Master
Chas. Moehel, Senior Warden
Louis Klein, Junior Warden
A. P. Nelson, Senior Deacon
Fritz Klein, Junior Deacon
Hans Satter, Senior Steward
Earl Whidden, Junior Steward
Rev. A. S. Phelps, Chaplain
J. W. Nash, Excellent Grand Master
W. J. Staats, Senior Grand Warden
C. Winter, Senior Deacon
Rev. H. M. MacWhorter, Grand Sec.

Get Away This Winter!

Get away from business and household responsibilities, care and worry. Get out into the glorious, semi-tropical atmosphere of California, where health, rest, comfort and delightful outdoor activities await you—amidst the flowers and orange blossoms beside the blue Pacific. 'Twill do you a world of good! If your neighbor has been there, ask him—he knows.

Be sure you make the most of the trip, however, and see Denver, Colorado Springs, Pike's Peak, Pueblo, the Royal Gorge, Scenic Colorado, Salt Lake City and the Feather River Canyon thru the Sierra Nevada Range—in daylight.

For the accommodation and convenience of Burlington patrons, main-line train 3 carries a thru sleeper daily, direct to San Francisco, connecting service from Salt Lake City via short line to Los Angeles. A delightfully—easy, care-free trip—takes a little longer, but it costs no more and is "The Route Beyond Compare if You Have Time to Spare."

Reduced-rate round-trip tickets are now on sale daily to California — long limits, liberal stop-over privileges—go one way and return via an entirely different route.

Deducting the cost of remaining at home and considering the price of things generally, you'll be surprised how reasonably the trip can be made—especially when you contemplate what this will mean to you and remember that a life which isn't pleasantly spent isn't well spent. Think it over!

Better let me make your reservation well in advance.

By the Proper Use of Her Gas Stove the Housewife Can Exercise Great Economy

It is difficult for a cook who is used to a coal range to realize the great intensity of gas range heat. When cooking on a gas range is once started it is almost impossible to use too little heat, but it is easy to use too much.

Almost all kinds of stewing or boiling should be done with the burner turned low; the results will be very much better. Rapid cooking will often spoil the food. The proper method is to start the boiling over a single burner with full flame, and then when the boiling point is reached, turn the flame very low, or transfer the saucepan to the simmering burner.

Some cooks light the giant burner for everything. This is wasteful and unnecessary. The simmering burner is an important aid to economy. It burns the smallest possible amount of gas and can be used for a great deal of cooking and for keeping things warm.
