Junior League after school. The new moving picture machine purchased by the Sunday School is here.

The picture "The Stream of Life" will be given December 23, in the church. It is reputed to be the best religious picture ever taken.

Seats free. Christmas Collection to be taken for Lake Bluff Orphanage or some other worthy institution.

"S-lad" Really "Salted."

S-lad literally means salted and is a direct descendant of the Latin word sal or salt.

The use of salad to mean the greens, from which or on which a salad dressing is placed is one of only recent inventions.

The Italian salata and the Spanish salada meaning salad in these languages actually mean salted.

Cheese Omelet.

To keep plated silver clean and bright without constant cleaning which is so injurious to plated articles, dissolve a small amount of borax in a basin with a little hot water and let it stand for three or four hours; then pour off the water, rinse with clean, cold water, and wipe with a wet cloth.

Quantity of Foods

Hard foods are a necessary part of a hygienic diet. The softest of cereals, if not properly prepared, therefore, are a way of keeping teeth in good condition.

It is to eat hard foods such as breadstuffs, root crops, fruits, nuts and fibrous vegetables. Hard food causes the saliva and gastric juice to flow.

If an individual is unable to hard the food is dry, the gastric flow of the stomach and gastritis may result.

Two Could Play That Game.

A hundred years ago a wealthy Irish clergyman named Page who lived near Alton, E. I., gave a party one of the young ladies left a glass.

Mr. Page returned it with the following note: "If from your glass you take the letter T, that glass is mine and that I have no more of it."

"If from your name you take the letter P, that glass is mine and that I have no more of it."

The story is told by a friend of the outbreak, whose grandchild had it at first hand. The outbreak.

Tunnel That Helped to Dig Itself

In the Stimpfen tunnel under the Alps, which is by far the greatest tunnel in the world, the quantity of water flowing out of the southern end, from the many veins encountered in the heart of the mountain, amounted to 1,000 gallons a minute.

and furnished sufficient power to compress the air by which its drills were worked, and to refrigerate the tunnel. The necessity for refrigeration may be judged from the fact that the air in the deeper parts of the tunnel rose as high as 140 degrees Fahrenheit when not artificially cooled.

Real Generosity

A couple of Yankee deacons were talking of a prominent citizen of whose liberality there had always been considerable difference of opinion.

"Well," said Deacon Diggs, "I have always held that Brother Brown was one of the most charitable men in this town."

"For instance, I have never known him to refuse to lend his plug hat to anybody who asked him for it."

A Sure Reminder

Perhaps the most original suggestion for a "reminder" was that of the little boy whose grandmother had forgotten his birthday present the year before.

"She wished to know what she could do in order that she should not forget it again. 'You might put your teeth in upside down,'" said the boy.

Graphite

Down to 1850 graphite was obtained chiefly from the Borrowdale mine in Cumberland, England.

Since then a supply has been drawn from eastern Siberia; from Ticonderoga, New York state; Buckingham, Quebec; and Bohemia.

Graphite is also produced in Ceylon, and Madagascar. Artificial graphite is also being manufactured.

Removing Mildew

Chloride of lime, used intelligently, will remove mildew. Do not use too much.

A teaspoonful to a small tub or pail full of water is plenty. Be sure lime is thoroughly dissolved, or better still, let it up in a stout piece of cloth and run water onto it, pressing the cloth with a stick; then allow it to float in tub. Immerse article to be cleaned and allow to stand several hours.

Remove and rinse thoroughly in several waters. Repeat if necessary, but do not increase quantity of lime, as it will eat the material.

Changed in Transit

A teacher asked her pupils to suggest a song to be sung by the class and a patriotic little fellow in the rear called for "My Country, 'Tis of Thee."

"His voice was so weak that the teacher could not understand and a youngster near him sang out: 'He wants His Country 'Tis of Him.'" Boston Transcript.

Better'n an Ice Wagon

When two little fresh boys asked a woman in an electric machine for a ride, she looked into the upturned dirty nose and didn't resist.

While driving to the store they had discovered they sat perfectly still with eyes focused straight ahead, but when they got out she heard one say: "You, that's better'n rain, a real wagon, ha-ha!"

Simple Wireless Messages

The waves of wireless stations are incessantly passing through our houses and our bodies and we neither see them nor feel them.

Yet if there be interposed a few strands of wire a metal plate and a tiny glowlamp and if these accessories be ranged in order, the wireless messengers will carry the sound of a voice speaking thousands of miles away. Brooklyn Eagle.

"Sporting One's Oak"

"To sport ones oak is a phrase signifying that one is not at home with visitors."

The saying originated at the English universities, where the students' chambers have two doors, an inner and an outer one. The outer door is made of oak and when this is closed or "sported" it denotes either that the occupant of the apartment is out or that he does not wish to be disturbed.

Had Sighed Over Cal's Hair

My first love affair came to a climax when my sweetheart discovered that he had been carrying a "lock" of the cal's hair next to his heart for several months, under the illusion that it was a lock of his hair.

He had insisted upon having a lock of my hair, but I, having none to spare, and finding that the color matched exactly that of my red cat, substituted that. It answered the purpose very well until a small boy gave the secret away. Then I was denounced as a true daughter of Eve's—Exchange.

Avoid World's Blind Alleys

The young men of today does not have to follow the paths their fathers had trodden. He has been sent to him.

He has a mind and body on what most people regard as a dead end. It is a blind alley, and they see to it that they do not become victims of it.

Some of these young men are in spirit, hand and foot. Then the world wonders and upbraids. It is only to reach the top of the mountain when you might as well be enjoying the fullest life. It is by chance you get lost, and you are lost that you get out of your Gait.

Cancer of the Toe-Nail

One of the rarest diseases known in cancer of the nail, only four cases being on record. The most recent one is described by Dr. Carlos Chagas of the medical college of Bahia, Bahia, Horizonte, Brazil.

It is that of a laborer, aged sixty, who had it on the nail of his right great toe. The toe was amputated and the man, apparently cured, disappeared. The toe was examined microscopically and confirmed the diagnosis.

For Dark Woodwork

The best way to clean dark-colored painted doors and woodwork is to take a pail of clean warm water and pour a little paraffin into it and then wash the wood over.

Working slowly with a piece of old Turkish towel. Never use with a piece of canvas, both good quality with a substantial grain. To attempt to clean such wood by hand rubbing is a mistake. It does not need it and will only be rubbed away.

BUSINESS PERSONALS

Advertisements

Katherin MacDonald in "Curtain" at Dicke's Thursday, December 22.

Xmas trees and Xmas candy at Bertolin & Siebert. 12-16-2

"All Fair in Love," at Dicke's next Friday, December 23.

Come in and see some of the exclusive features on our DeLuxe Player Pianos. DeLuxe Music Store.

"As Fine as Silk"

Some New York model girls were gathered around a lunchroom table "talking shop." A silk merchant of million conditions with him were "talking shop," talking which is a right hand looking in further details, for example, for his business was in "talking silk." Fashion News Bureau.

Keep Bandages Handy

A box of bandages should be kept handy in every household in case of accidents. These can easily be made.

Take a piece from a clean cotton cloth, wash and wring out thoroughly, soak in a solution of salicylic acid, dry, and then place in a box.
