The Horton Ironer Solves Your Hardest Task

Mrs. Housewife
After the long time for ironing clothes, the new Horton Ironer is a real labor saver. It is so simple to use that even a child can operate it. It is so light and compact that it can be stored away in a closet. The ironing is so easy that the average family is free from being an easy task. Some women think it is easier than washing.

With a HORTON IRONER all this is changed. Ironing is no longer labor but pleasure. It does 100 per cent of your ironing. No pieces are too large or too small. None are too difficult. It is the latest achievement in ironer simplicity and pays for itself quickly through its many advantages.

ARE YOU HELPING YOUR COMMUNITY?
In the final analysis, the men and women of a community cannot be classed as real members of that community unless they are active in the movements which go to make the place, wherever it may be, more livable; more home-like and more of a large family than a grouping together of strangers.
Look back over the past year. Review the things which have come up before the public for consideration and then ask yourself what you did during that year for the community. Downers Grove has every advan-
