A 365 1-4 Day Industry

Like Tennyson's brook, the gas business "runs on forever." We can't lock up shop for the night, take a vacation during the dog days, close down because of high prices or get tired of doing business here and move elsewhere. We must stay on the job at all times, serving everybody alike, rich and poor.

The churches may be closed six days a week, the schools two days, the post office, banks and stores one day, but not your gas plant. No business requires more unselfish devotion to the maintenance of continuous and good service than does this one.

Interruption of service is practically unknown, has come to be considered almost a disgrace, and has been prevented only by the utmost care, intelligence and watchfulness. The gas business is a 24-hour, 365 1/4 day industry and its fires never go out, winter or summer, bad times or good times, day or night.

Service such as this deserves your good will.
