Start of Smoking.

Smoking was practiced by the most primitive peoples. Tobacco, opium, and hemp were the herbs most used.

Speaker and Lord Chancellor.

One difference between the speaker of the English house of commons and the lord chancellor, who occupies a similar position in the house of lords, is that while the speaker cannot take part in debates and can vote only when there is a tie, the lord chancellor is entitled to speak and vote on all occasions.

Mammoth Organs.

Amongst the largest organs in the world are the Harlem instrument, which possesses sixty stops and 8,000 pipes; the Albert Hall organ, with 125 stops; the organ in St. George's Hall, Liverpool, with 110 stops; one at St. Louis, which boasts 150 stops; and one in Sydney, Australia, with 125 stops.

Personality.

It is personality that makes for our success or our failure among men, and this personality does not come by chance. Tastes and dispositions we may inherit, and natural talents may have been given us, but out of these we are to shape that strange and wonderfully effective tool—personality.

LEAGUE OF WOMEN VOTERS MEETS IN LIBRARY FEB. 28th

Women of Community Taking Greater Interest Since Political Pot is Boiling.

The next meeting of the local committee, League of Women Voters, will be held Tuesday afternoon, February 28, in Library Hall.

Women of the community are taking a greater interest in the political affairs of the county since there is a possibility that a woman from DuPage will be a candidate for the legislature.

While the women are, as the saying goes, still "feeling their way" much can be expected of their united effort when they have learned a little of the practical side and have a program which they can follow.

The Neutral Background.

A clue to the effective use of color in interior decoration is to be found in a consideration of the ways of nature. Here we find the large areas in the softer colors, with accents in brilliant but small patches, as in flowers and birds.

Willing Enough.

A negro strolled into a public library. "Ah want an encyclopedia," he said. "Whose encyclopedia, and what volume?" asked the attendant.

Cement for China.

Dissolve one large tablespoonful of gum arabic in one-quarter cupful of warm water (it must be rather thick). Put in enough plaster of paris to make a thick paste.

Why "Colonel" is Popular.

Another reason why the grand old title of Colonel leads all the rest is, it is so democratic that it spreads its nobility and honor alike in war and peace.
