Cleans the Entire House

I want you to try this Vacuum Sweeper (with the motor-driven brush) in your own home. Demonstrate to your own satisfaction its superior merits and then ask me about the low price and the easy payment plan, should you desire it. Merely—

At last, you can have a vacuum sweeper with a motor-driven brush that has the tremendous suction necessary to make attachments efficient and really worth while.

You certainly will be satisfied with no other once you see its over-strength parts and guaranteed motor; and hear how quietly it runs. Unless you are mechanically minded, you won't be interested in hearing of the many costly factory operations and quality workmanship that make this vacuum sweeper superior; but we assure you that there isn't a more efficient, longer-lasting cleaner on the market.

We shall be glad to demonstrate and explain its thirty points of better-ness, and to tell you all about our new small payment plan that makes it easy for you to own this fine vacuum sweeper.
