THE FIRE DEPARTMENT

Downers Grove has a bunch of fire laddies of which we may well be very proud. They went after and secured the best fire fighting apparatus there is on the market, guaranteed the payment and have demonstrated by act ual work, that it will (and has) saved its cost many times over.

Unquestionably they should not have had to go out into the highways and byways to gather up the money to pay for the truck. The village board should have furnished the necessary funds. But the village could not spare the money and the need was great. In this hour of need the firemen, recognizing the grief they would go through in collecting the funds by private subscription, and still going

Township Commissioner of Highways, Chas. Roe, and County Superintendent of Highways, E. L. Gates, decided to wait with the paring of Maple avoue until the Plank road had been completed.

We believe they were right and should not be rensured for their farsightedness in the matter.

THE BASCBALL FIELD

As will be noted on another page. a meeting will be held at the Legion rooms, next Tuesday night, to finally make some disposition of the controversy regarding the North Side Field.

The committee from the local Legion post feel that the post should not have anything to do with the property, once it is purchased. They feel, and rightly, that the title to the property should vest in the village, so that the purpose of the project will not be lost

Several of the men who donated money toward the cause feel that the Legion should have the title and the full say as to the final disposition of the field.

Here they are deadlocked. The meeting next Tuesday should settle the question one way or the other. Unquestionable the Memorial idea should be carried out and the land purchased for an athletic field. We believe, as does the Legion, that it is better to have the title to the land rest in some community body

that will be here always.

Much has been accomplished; mo than people are aware, so gradual has been the advance. How noiseless is the growth of corn! Watch it night and day for a week, and you will never see it growing; but return after two months, and you will find it all whitening for the harvest; such, and so imperceptible in the stages of their motion, are the victories of the press. -De Quincey.
