SCHOOL EXHIBIT AT P.T. MEETING NEXT THURSDAY

Results of Year's Work in Three Departments are to be Shown—Everyone Invited.

The last regular meeting of the year will be held by the Parent-Teacher association on next Thursday evening, May 18. Officers for the next year will be chosen after which an invitation will be extended to visit the exhibit of work done by the students during the school term.

A large attendance is desired at this meeting, as besides the necessity of attending to all the business that will come before the association, the students and teachers have gone to considerable pains to arrange this exhibit for the parents and deserve to be rewarded by a representative gathering.

Music and refreshments are also on the program. Come and bring your friends.
 The school departments of cooking, sewing, art and chemistry will have something to interest not only those who have children in the schools, but all citizens of the community who are progressive and wide awake to the opportunities given in the present day school for those anxious to really learn.

In the cooking room will be shown samples of well proportioned meals, food equivalents of the common foods with many facts of common intelligence to the students of cooking.

The sewing and art room will have on display examples of the work of these departments. There will be dress designs, color schemes and millinery. To supplement this exhibit, will be a short playlet characterizing students who take advantage of the course in sewing.

Students of the chemistry class will demonstrate laboratory procedure in various phases of the years work. These interesting experiments are in soapmaking, photography, dyeing and such subjects as interest immensely

the pupil as well as the onlooker. Everyone, whether or not they are in any way connected with the Parent-Teacher association, is urged to attend the meeting and the exhibit.
