Ford Owners Attention! When a FORD "Jerks" or "Shakes" as it stops, starts or reverses, realize at once that imperfect lubrication is the trouble—not faulty design. It is telling you in the only way it can, that it needs the new kind of oil—"F" Autoline Oil for Fords. It not only stops "chatter" but it gives more mileage on gasoline because of better compression; it reduces carbon and increases the life of the car. Yet, it costs no more than ordinary oil. 30c a quart puts "F" Autoline Oil in your Ford. If it doesn't stop "jerking" and "chattering" come back and get your money. Downers Grove Hardware Co. E. R. DUNNAGAN
