from the northern border to the southern border.

The several meetings disclosed the fact that the necessity of establishing a district is immediate if we are to have one. We have been closed in all around by just such districts by wide-awake people who "have beat us to it" so to speak, until there is but a limited territory to draw from. The Lisle district on the west, the people of said district who helped defeat the project here at the last election, now have voted one for themselves. The Lemont Community H. S. district is on the south, commencing at the Joliet road; York on the north coming to about one-half mile north of the Plank road and Hinsdale on the east.

It is approximately three miles wide from the western border to the eastern border, and approximately five miles
