HOT WATER--
One Thing You Can't Get Along Without

Have it flowing hot from your faucets. You can, of course, heat it in the tea kettle, if you wish, just as you can light your home with a flickering candle. But there's a newer, better, more efficient, labor-saving way and housewives who value their time and strength will accept no other method in their homes.

A Gas Water Heater

providing real hot water service will be the biggest possible boon to your home comfort. It will give you hot water when you want it and where you want it without fuss or muss and at a cost of but a few cents for a tubful.

We will gladly give you full particulars.
