

# A TRIO OF MECHANICS

## THAT CAN'T BE BEAT!

---

### Leo Bertolin-Wm. Krambs-Arthur Chester

**LEO BERTOLIN**— Our mainstay for the past three years, started his apprenticeship with Caldwell & Son, of Chicago, 18 years ago, then serving in local machine shops for ten years. During the war he worked for the Pondelik Machine Co., Chicago, doing lathe and milling work on government orders. He is a machinist, electrician and mechanic of a type hard to equal.

**WILLIAM KRAMBS**—the latest addition to our force, began his career at Caldwells with Bertolin and over a period of six years served as machinist with the Western Electric Co., Robert Tarrant, Geo. D. Whitcomb and Pringle & Brodie. Since 1912 he has spent his entire time in auto repair work and has had a wide experience on cars such as the Marmon, Pierce-Arrow, Cadillac, Packard, etc.

**ARTHUR CHESTER**—while younger in experience, is a valuable addition to our force. He served for three years in the International Harvester Co.'s works and at the outbreak of the war was rated as assistant engineer in the experimental department of their tractor works. During 18 months spent in the aviation department of the U. S. army, he was rated as an aero engineer. Repairman and the experience and training received there has proved invaluable to him and to us.
