

Downers Grove Reporter

Issued every Friday morning from the office of the Downers Grove Publishing Company, 37 North Main street, Downers Grove, Illinois.

W. J. STAATS, Editor
C. J. WINTER, Business Manager

Entered at the Downers Grove Post Office as second class mail matter. Advertising rates made known upon application. Subscription rates \$2.00 per year. Single copies 5c.

IT'S POWERFUL STUFF

In another column in this paper will be found an article by the Rev. Newland which should open the eyes of some of our misguided youths. It should be thoroughly studied and analyzed by those who are in the habit of using this stuff or who are hankering to try it. The young fellow from Downers Grove drank some liquor some time ago which made him blind for two days and according to the state chemist, "if he had drunk half the half the remaining contents of this bottle he would have permanently lost his eyesight from the large quantity of wood alcohol contained."

Many people have read in the daily newspapers of persons being blinded and even of losing their lives from the use of this moonshine, or whatever name it goes by, but it does not seem to have impressed many of the younger generation. Now that the facts have been brought home it is certainly time to sit up take notice.

It may or may not be the thing to go out and think you are having a high time with the boys, but when it comes to sampling this high powered stuff you had better stop and think whether or not it is worth while. Better to stay at home and not run the chance of blinding or even killing yourself. It's powerful stuff and something must be done to wipe out this evil and protect our boys from permanent injury.

SOUTH-OF-LISLE NOTES

Hillcrest Dance Pavilion open Wednesday evenings.

Margery Kampmeyer has been visiting Grandma Strauley at Downers.

Elmer Kampmeyer was at Wheaton Friday.

Clara Schrader is keeping house for her brother, Peter Schrader.

Mr. Paul Utley has been on a fishing trip for a few days.

Miss Julia Klinger, of Plainfield, is spending her vacation at home and at Naperville.

Collins Goodrich has been laid up for several days having been kicked by a horse.

Peter Schrader got mixed up with the hay rope and cut a severe gash in his finger.

Mr. and Mrs. John Nadelhoffer and daughter, Luella, spent Friday evening at the Harry Foster home.

Mr and Mrs D Howland and children have moved from Belmont Farm to Beverly Hills.

The Ladies Guild of St. John's church, Naperville, met with Mrs. D. D. Barnard on last Thursday afternoon instead of the preceding week.

Mr and Mrs Collins Goodrich and Mrs. Josephine Hageman, had Sunday night supper with Mr. and Mrs. William McColl at Wheaton.

Mr George Pelling and Mr Walsh, of Downers Grove, motored to Grand Haven, Michigan, to see the H. G. Nicols family, former residents in this vicinity. They report a most wonderful time.

Mr and Mrs Lawrence Pelling and family, Mrs. Pelling and son, Alvin, of Lisle, Mr. and Mrs. George Hoffert, of Downers Grove, Mr. and Mrs. W. Cooper and Miss Bee Hemmer, of Oak Park, and Mr. Morris, of Chicago, had a picnic at the Forks Sunday.

Desiccated Vegetables.

When dehydrated raw vegetables are stored in airtight containers at ordinary temperatures investigations show that their moisture content is an important factor in their preservation. There is a "critical moisture content" below which the distinctive color and taste is retained unimpaired for upward of six months. For cabbage this is from 3 to 3.24 per cent; for onions, from 3.74 to 6.64 per cent. There is more injury from exposure to an atmosphere of comparatively high humidity at lower temperatures than from similar exposure in a dry atmosphere.

REV. MacWHORTER WILL BROADCAST SUNDAY FROM KYW

(Continued from Page 1)
Rev. Hugh M. MacWhorter, and the S. Andrew's Choir, and Miss Norpell, violinist, will broadcast a service from station KYW located on the 18th floor of the Edison Building, Chicago. The service will be quite similar to the evening service of the Anglican Book of Common Prayer, but adapted to the requirements of the microphone, the delicately adjusted receiver of the sending apparatus. The entire choir will be used but for three numbers, for at present, the best results are obtained from four or less voices, and the responsive reading is eliminated.

The subject of the sermon is, "The Way, the Truth, and the Life." In this sermon, Mr. MacWhorter will discuss the theme that Christ Himself is the center and the keystone of the entire Christian religion, and the deep significance of Our Lord's words in S. John's gospel: "I am the way, and the truth, and the life: no one cometh unto the Father, but through Me."

The program of the service is as follows:

1. S. Andrew's Hymn—Entire Choir
2. Prayer, Psalter and Creed
3. Anthem: "The Trumpet Shall Sound."—Entire Choir
4. Lord's Prayer and Collects
5. Violin Solo: "Andante Religioso"—Miss Zita Norpell, Mr. Sam Kenison, accompanist
6. Quartette: "Turn Thy Face From My Sins." Mr. and Mrs. Leslie Sanders, Mr. and Mrs. M. E. Coleman
7. Scripture Lesson
8. Quartette: "The King of Love My Shepherd Is."
9. Sermon
10. Hymn: "Sun of My Soul." The Quartette
11. Closing prayers and benediction
12. Chant: "Nunc Dimittis." Entire Choir, unaccompanied
13. Violin solo: "Ave Marie." Miss Norpell.

Fathers? Nix!

In the holiday seasons, when the toy shop windows are glittering with all sorts of splendors, nothing is more pathetic than a group of middle-aged and white-headed folk who follow the children aside to obtain a glimpse of the railways, the dolls, the boats, and all the other delights of the world in miniature. The sentimentalist remarks: "Poor things, they are wishing they had enough money to buy that doll for little Annie or that pony cart for little Alec." Bosh! They are wishing they had had enough courage to buy them for themselves and play with them brazenly before the whole family of amateur alienists!—Harper's Magazine.

COUNTY ROAD COMMITTEE MADE AN INSPECTION TRIP

(Continued from Page 1)
it runs directly through Elmhurst and Lombard and just north of Glen Ellyn and Wheaton into St. Charles and they claim this road has never been in very good condition and should be one of the first to be taken care of.

After the committee had considered a few of these suggestions, they threw up their hands as it takes money to make road improvements and all they can do with the money available is to continue the road from Naperville to Wheaton, and through Wheaton to Bloomingdale. They realize that this is a slow process but the best they can do with the money they now have available.

They realize that it would be a fine thing to have all these roads so that each city and village could be connected with the main concrete roads in the county and could also reach the county seat from some good north and south road. They also realize that building one north and south road the traffic would all center toward that road and it will take a good deal of maintenance to keep it in shape even after it is built, whereas if they could get all roads built about the same time it would divide the traffic and be much easier in keeping the roads in good shape. It will also be a cheaper proposition in the long run.

The bridge question is also quite a problem as nearly everyone knows that if we build one good substantial bridge it would take about all the money that the county could raise in a years time. The townships also have the right to call upon the county to pay one-half the cost of the township bridges under certain conditions. If one of the river bridges should break down and have to be rebuilt the patrolmen would have to be called off, as by the present process of raising revenue we would not have enough to pay them. The county is only raising enough at the present time annually to pay for about one mile of a new concrete road, at the present cost of about \$30,000 per mile, so when the public has any complaint to make in regard to the condition of the roads, let it be with a constructive criticism and not with the idea that nothing has been done to take care of these roads, as it should be realized that the county is doing everything possible with the money available.

Carrot Leaves as Headdress.

There was a time when ladies adorned their heads with carrot leaves, the light feathery verdure of which, it is said, "caused them to be no contemptible substitute for the plumage of birds."

CAUSE OF CANCER UNKNOWN

Dr. Disease Has baffled the Best Efforts of the Medical Fraternity for Centuries.

Medical science today knows no more about the cause of cancer than was known 1,000 years ago.

Some families seem to be immune. In other families deaths from cancer occur in generation after generation, as if to show a hereditary tendency. There are many so-called "cancer houses," in which deaths from the disease have occurred with such lamentable repetition as to destroy their market value for selling or renting purposes. An evil repute attaches to certain well-known "cancer districts," in which the death rate from this malady is extraordinarily high. There is one such district in the Berkshires of Massachusetts, another is in the middle of New York state.

One of the many theories regarding the cause of cancer is that it is attributable to an undiscovered germ, carried by the bedbug or some other insect. If that were correct, the disease would surely be more prevalent among the slum-dwelling poor than among well-to-do people who enjoy the benefit of sanitary surroundings. But such is not the case; cancer is as common among the rich as in the tenement and poorer quarters of our cities.—Pittsburgh Dispatch.

We Try To Satisfy.

H. C. PITCHER Dry Goods - Groceries

∴ Market ∴

Cor. Main & Curtiss Sts. Phones 175 & 176

The total cost of heating a new ten room house last winter was only \$132.00.

Name of owner and location on request

All the convenience—the safety—the cleanliness of Oil Heating with the added advantage of ECONOMY if you use the measured HEAT of the

Berryman System of Oil Heating

The Berryman Heater uses a definitely fixed amount of fuel—a pre-determined quantity sufficient to adequately heat the house. There is no waste of fuel and consequently no wasted heat. It is this principle of MEASURED HEAT which distinguishes the "Berryman" from all other Oil Heating Systems.

Manufactured and Guaranteed by a strong, reliable company—The Chicago Steel Tank Company.

MODERN HOME HEATING IS OBTAINED THROUGH THE USE OF THE ABOVE IN CONJUNCTION WITH THE BREESE OIL BURNING BOILER.

B. E. BALCZYNSKI
