HABITS OF STARLING BENEFICIAL TO MAN

Biological Survey Has Made Extensive Study of Bird.

In State of Mating They Are Given Protection While Not Destroying Crops—Two Ways of Breaking Up Their Roosts.

(Prepared by the United States Department of Agriculture.)

Contrary to popular opinion, the starling is not an undesirable bird alien, according to the biological survey of the United States Department of Agriculture. Most of its food habits have been demonstrated to be either beneficial to man or of a neutral character. The time the bird spends destroying cherries or molesting other birds is short compared with the endless hours it spends searching for insects or feeding on wild fruits.

To determine what should be the attitude of the public toward the starling, in respect to protective legislation, the biological survey has made an extensive study of it. The starling secures less than 6 per cent of its yearly food from cultivated crops.

The Starling Secures Less Than 6 Per Cent of Its Food From Cultivated Crops.

The bluebird and the flicker suffer most at the breeding season from the starling's attacks on their nests.

In most states where starlings are present, even in moderate numbers, they have been placed on the list of exceptions to protection. In Maine they are given protection subject to a provision whereby they may be killed when destroying crops. The department recommends this type of law in justice to the farmer whose crops are threatened by a local overabundance of these birds. Roosts of starlings may be broken up by frightening the birds with the persistent use of firearms or Roman candles, but vigilance is necessary to prevent the re-establishment of roosts by removal to other places where they would be equally objectionable.

POISON KILLS GRASSHOPPERS

Paris Green or Arsenic Added to Wheat Bran Will Destroy Large Number of Them.

A very effective grasshopper poison to use as follows:
To 25 pounds of wheat bran add one pound of Paris green or arsenic, six oranges or lemons finely chopped; two quarts of low grade molasses and from two to four gallons of water.
If this is thoroughly mixed and then scattered over grasshopper infested areas, it will dispose of large numbers of them. The mixture may be scattered in the morning; unless it is very dry when it should be put out in the evening. It may be scattered through a regular oats seeder, set to sow about three bushels of oats per acre.

ADJUST HARNESS ON HORSES

Practically No Trouble From Sore Necks If Hames Fit Animals' Necks Properly.

If the hames fit the horses and they are properly adjusted there will be practically no trouble from sore necks, collar boils and galled shoulders during the summer season when horses do their hardest work. The most important part of the harness is the collar. A broad-faced collar is one to be preferred. It should fit snug or almost tight when new. The same collar should be used on the same horse from day to day. The next item is the regulation of the hame string both at the top and the bottom to fit the collar snug. Any variation will pinch the neck or bruise the shoulder.

Thursday 8:00 p. m. Choir Rehearsal.

FIRST BAPTIST CHURCH

Rev. Arnold H. Kehrl, Minister

Sunday, July 1, 1922.
9:45 a. m. Bible School and Men's Class.
11:00 a. m. Morning Worship.
Theme: "Seven Changes."
6:30 p. m. B. Y. P. U.
Leader, Ernest Bammann.
7:30 p. m. Union Service on lawn at Methodist church. Rev. Phelps will preach.
Wednesday evening Prayer Meeting at 8 o'clock.
Monday evening Choir Practice at 7:30 o'clock.

GREAT BASEBALL

FIELD DAY AT LOMBARD SATURDAY

Big Time to be Participated in by Representatives from All Over County.

Everything is in readiness for the greatest baseball field day and athletic carnival ever held in this section of the country. To be staged at Lombard, Ill., on Saturday, July 15, beginning at 1:30 p. m.

This event, to be participated in by 14 baseball teams, is held under the auspices of the Fox River Valley Baseball League of Illinois. This organization is composed of teams from Wheaton, Naperville, West Elgin, West Chicago, Winfield, Addison, Villa Park, Glen Ellyn, Westmore, Arlmore Bensenville Bellwood, Oak Park and Lombard.

The purpose of the affair is to bring together all of the players of the League, their friends, relatives and supporters, together with the umpires and other officials of the League etc., for a day of healthy athletic competition and good fellowship preparatory to the opening of the contest for the beautiful \$500.00 Silver Loving Cup, being donated to the League by a prominent citizen.

17 different forms of athletic competition, all centering around the National pastime, form the field day program proper. Among these are the fastest circulation of bases, long and short distance accurate throwing, base sliding, base stealing, fungo hitting, bunting, etc. Each of the 14 teams is to enter one player in each event and valuable prizes, embodying baseball paraphernalia, are to be given for those who win in the various events. A grand prize is to be given the team whose athletes garner the greatest number of points in the field events, based on five points for each first prize, three points for each second, and one point for each third.

Following these events an all-star baseball game will take place between two teams composed of the best players of the league, which teams have been selected by the umpires of the league. Six of the premier pitchers of the league will work in this game, three on each team, with their battery mates, for three innings apiece. Four of the best umpires of the league will work in this game, one at each corner of the diamond, with the Chief Umpire of the league, Mr. John Walker, of West Chicago, behind the plate.

After the game the prizes will be awarded to the athletes who have proven most proficient in the field contests, and this part of the program will be brought to a climax by the presentation of the grand prize to the team winning the athletic carnival, and the presentation of the beautiful silver loving cup of the league. The most prominent men who participate in this part of the program. All of the officials of DuPage county will be present, together with Mr. Frank Reid, nominee for Congress from Aurora, and others. Mr. John Cullerton, of Chicago, donor of the famous Cullerton Baseball Cup, will be present and will referee the field events, and the management of the affair hopes to have Mr. Grover Alexander, the famous Chicago Cubs pitcher, on hand to ably assist him.

The music for the day will be ably taken care of by the famous 50 piece band of the Great Lakes Naval Training Station. The management has

here been enabled to place a headliner on its program. Following the donation of the prizes and the awarding of the cup, there will be an old-fashioned southern barbecue supper served, and the evening will be spent in dancing on an open air floor, being erected on the grounds, large enough to accommodate 300 couples, while this famous band furnishes the music. Fire works and a special movie program, especially arranged for those who do not dance, will fill out the balance of the days events.

All the business men of Lombard are closing their places of business beginning at 1:00 o'clock p. m. for the rest of the day, and the city administration, indeed the entire citizenship of Lombard, is behind the proposition. Committees have been selected and put to work, a great crowd is expected, and this will undoubtedly be one of the largest and most successful days of entertainment and good fellowship ever held in this section of the state. Everyone is invited to attend and bring their friends and it is hoped that ballplayers and a good representation from Downers Grove will be present. The baseball league wants to get four more teams in this league and consequently the Downers Grove and Hinsdale teams will join as these two towns are the only ones of any size in the county who are not connected with the league.

The Alhambra.

The Alhambra, most beautiful of all the palaces in Spain, was built by a Moorish king in about 1250, but has been enlarged by several successors of this ruler. It is a marvel of lovely arches and courtyards, which the court of Lions is the most known and admired. The hall of the Ambassadors is, supposedly, the square apartment in which Columbus presented his project to Ferdinand and Isabella.

EVERY SUBSCRIBER A STOCKHOLDER

This Is Aim of Illinois Bell Telephone Company in Offering A. T. & T. Stock to Public. Employees Will Assist in Sales.

To assist in obtaining a wider ownership in the telephone industry, the Illinois Bell Telephone Company, through its employees, has planned to sell a limited amount of stock in the American Telephone and Telegraph Company to the public of Illinois.

This is not new stock of the American Company, but stock which is expected to be obtained and sold at the market price. The purpose is to effect redistribution and place the shares in the hands of telephone subscribers and users. Announcement of the plan was made in the Bell Telephone News, the official magazine of the Illinois Bell Telephone Company.

Arrangements have been made for the sale of this stock in every exchange of the Illinois Bell Telephone Company, and the details will be handled by the commercial representatives. Employees in all departments, however, will assist in obtaining new shareholders.

The Bell System is required to provide approximately \$215,000,000 each year for additions and replacements in order that telephone facilities may be furnished those who want service. It is more than most European nations spent annually for public purposes before the war. It is two and one-half times the annual expenditure of the United States government the year before the Civil War, and it is more than the annual pre-war expense of Spain, Brazil, Argentina or Canada.

Sure to Be Found Out.

The man who dresses himself up in borrowed garments to appear wiser and better than he really is is certain to be discovered. Far better to light and carry his own little candle and strive vigorously to connect with the electric wires of experience and knowledge.

MOST OF THE PEOPLE OF THE VILLAGE WILL BE OBLIGED TO DECORATE EITHER SOONER OR LATER. REMEMBER OUR SERVICE WHEN GIVING YOUR DECORATING CONTRACTS. F. C. MOBERG & SON PAINTERS AND DECORATORS 20 NORTH MAIN STREET DOWNERS GROVE, ILLINOIS

"There's No Place Like Colorado After All!"

Colorado is as big as all New England, with Indiana added; two-thirds is mountainous — 100,000 square miles contain 155 peaks that are more than 13,000 feet high. Within the state there are 500 lakes—large and small; 6,000 miles of running water, born of snow and filled with fish. Mineral springs abound—no one knows how many there are. Every railroad line is an excursion line. Motor highways radiate in all directions.

Obviously, in such a region, vacation possibilities are boundless. Colorado IS America's Grandest Mountain Playground.

Where to go? There are a thousand different places! When to go? Any time! This summer, when you're tuckered and seeking escape from the heat and dust, get out under that magnificent cool blue Colorado sky. Get the tang of the mountain air and the spicy smell of pine in your nostrils. You will not have to ask anybody whether it was the right thing to do.

How to go? Oh, just climb aboard one of our luxurious limiteds. Don't think of Colorado as "Way off yonder"—it's right next door and the journey there is intensely interesting.

Vacation costs are down. This year your travel money goes much farther. Make 1922 memorable for its perfect vacation. Come in and see me about it.
