FAIR AUG. 18-26

Big Agricultural and Amusement Exposition at New \$500,000 Park.

TO GIVE \$125,000 IN PRIZES

Agricultural, manufacturing and educational activities of the great Middle West, combined with the greatest amusements that money can secure, will make the first annual Central States Fair and Exposition at Exposition park, Aurora, Ill., August 18 to 26, inclusive, the biggest event of the kind in the Central West. The live stock and farm products exhibits will outdo those of any other fair in this section of the country.

A total of \$125,000 in premiums, purses and attractions has been appropriated to supply recreation to more than 500,000 people who are expected to attend the fair, and to attract exhibitors in the various departments. The association, a corporation with more than 1,500 farmer stockholders, has invested more than half a million dollars in the grounds and buildings and the directors take pride in the fact that when the gates of the greatest fair grounds in the country are thrown open on August 18, opening day, there will not be a dollar of indebtedness on the plant.

Competition Open to World.

Competition in all departments is open to the world and already live stock breeders, manufacturers and agricultural interests from almost every state in the Union have contracted for space. Every national and international stock breeders' association in the United States has added to the premium money offered by the fair assuring the association of the great pure bred live stock exhibits in the history of the Middle West. Prizes in this department are greater than at most of the state fairs.

The Illinois university, state and national agricultural associations, the United States and Illinois departments of agriculture, and more than 40 county farm bureaus are co-operating to make the farm products department second to none in the world. Every product of the great American agricultural industry will be shown.

A Few Fair Facts.

An idea of the immensity of the exposition may be gained from the following facts concerning the fair:

One hundred and forty acres of land in fair grounds property.

Largest concrete and steel grand stand on any fair grounds in the United States, costing \$100,000 and seating 10,000 persons, with additional seats for 5,000 in bleachers.

Thirty-five thousand square feet of exhibition space in Varied Industries building.

Thirty to fifty acres of Field exhibition space for farm machinery and implements.

Parking space for 7,000 automobiles. Forty-five thousand square feet of inside exhibition space for machinery.

Greatest tent in the world, 600 feet long and 185 feet wide, for an automobile show in which all models of practically every known make of car will be exhibited.

National Lumber Manufacturers' association \$35,000 building, constructed entirely of logs from the north woods, for lumber exhibits.

U. S. Department of Forestry will have an exhibit.

U. S. Department of Agriculture will have an exhibit.

Swine pavilion will house 2,000 animals.

Cattle pavilion will house 1,100 animals.

Accommodation for 400 head of heavy draft and light harness horses.

Tented city on grounds with accommodations for 2,000 people.

Immense buildings to house exhibits of agriculture, horticulture, fine arts, education and woman's work.

Canadian government will have an agricultural exhibit.

Great Western Circuit harness racing and International Motor Contest association automobile races on new \$130,000 track.

Midway with famous Johnny J. Jones shows, 35 attractions, daredevil balloon and airplane exhibitions, gorgeous night fireworks display and other great amusement features.

CHAMPION BABY WILL BE PICKED

Better Babies' Conference at Central States Fair.

The Better Babies' Conference at the Central States Fair and Exposition at Aurora, Ill., August 18 to 26, will be under the direction of the State Department of Public Health. Prizes will be awarded the babies making the highest scores in the six sections. The mother of the champion baby will be awarded a \$100 gold watch and, in addition, will be sent to the state fair at Springfield, with all expenses paid, where the champion baby of the Central States fair will be entered for the state title. For entry blanks and instructions, address Clifford R. Trimble, secretary-manager, Central States Fair and Exposition, Aurora, Ill.

HEADLIGHT FIEND ALL OVER STATE

Campaign Started by Emmerson Gets Results in Many Communities.

Good results have followed the recent efforts of Secretary of State Louis L. Emmerson to secure better enforcement of the headlight dimming law in the state, according to reports received at his office. Some time ago he instructed all investigators operating under his direction to make a special effort to obtain strict enforcement of this law, and to urge local authorities to co-operate with them. He also sent a letter to every sheriff and every chief of police in the state asking him to see that this law was enforced.

Provision of Law.

The section of the law referring to the headlight dimming is as follows: "When upon any public highway in this state, during the period from one hour after sunset to sunrise, every motor bicycle should carry one lighted lamp and every motor vehicle two lighted lamps, showing white lights, or lights of a yellow or amber tint, visible at least two hundred (200) feet in the direction toward which each motor bicycle or motor vehicle is proceeding, and shall also exhibit at least one lighted lamp which shall be so situated as to throw a red light visible in the reverse direction. The number plate at the back of the motor vehicle provided for in section 14 shall be firmly attached to the vehicle, so that it will not swing loosely, and shall be so lighted that the number on said plate shall be plainly legible and intelligible at a distance of fifty (50) feet. On approaching another vehicle proceeding in an opposite direction, and when within not less than two hundred and fifty (250) feet of same, any person in charge of a motor bicycle or motor vehicle equipped with electric headlight or headlights, shall dim or extinguish such headlight or lights. The provision herein contained in regard to dimming or extinguishing of headlights shall not apply when such headlights are equipped with an anti-glare device or lenses which prevent a glaring or dazzling light. During the period from one hour after sunset to sunrise every motor bicycle or motor vehicle which is standing on any road, highway or street shall display a light on the front and at the rear of the same. However, any city, town or village may, by ordinance, under rules and regulations it may prescribe, designate any part or parts of any street, or other highway therein, as parking places in which motor bicycles and motor vehicles may be parked without having their lamps lighted, as otherwise required by this section. Such parking place or places shall be lighted."

Only 10 per cent of drivers of automobiles exercise the proper care in crossing railroad grade crossings. The great majority of drivers do not look either way before crossing, and others took only one way. Many take a long chance by rushing across the track when they see a train approaching.

Accidents at street intersections would be unknown if drivers would slow down on approaching the intersection and always obey the right-of-way law.

Automobile drivers are not mind readers. Always signal when you expect to stop or turn.

NOT OBEY THE LAW

Fail to Keep Record of Automobile Brought in for Storage or Repair.

Investigators working under the direction of Secretary of State Louis L. Emmerson, report that the section of the automobile laws most generally ignored is the provision requiring garages to register the numbers of all cars brought in for storage or repair. The record, if the law is complied with, should show the license number of the car, the serial number and the engine number.

The purpose of this act is to make the detection of automobile thefts easier and to facilitate the return of stolen cars.

Secretary of State Emmerson collects from local sheriffs and police authorities the numbers of all stolen automobiles. These are published weekly in bulletin form and sent to all sheriffs and chiefs of police in the state.

If every garage kept a register showing the numbers of all cars brought in for storage or repair, it would be much easier for the police to trace these cars.

Investigation shows that only a small percentage of garages comply with this law.

Only 10 per cent of drivers of automobiles exercise the proper care in crossing railroad grade crossings. The great majority of drivers do not look either way before crossing, and others took only one way. Many take a long chance by rushing across the track when they see a train approaching.

Accidents at street intersections would be unknown if drivers would slow down on approaching the intersection and always obey the right-of-way law.

Automobile drivers are not mind readers. Always signal when you expect to stop or turn.

No Ghouls Wanted. Editor (after a surfeit of old jokes): "M-m-m. Yes! But I would like to meet a humorist who is not an ex-humorist."—London Mail.

PROPOSAL FOR BIDS

One Air Compressor, one Direct Connected Synchronous Motor of 2300 volts, 3 phase, 60 cycle and One Vertical Type Air Receiver.

Sealed proposals will be received by the Village of Downers Grove, Illinois until 8 p. m. (Daylight saving time) July 31st, 1922, for one Air Compressor, one Direct Connected Synchronous Motor of 2300 Volts, 3 phase, 60 cycle and one Vertical Type Air Receiver to be used for Air Lift Equipment on Deep Water Wells. The Village Council reserves the right to reject any and all bids. Specifications will be furnished by addressing Charles M. Hitch, Village Clerk. 7-21-2

HOT WATER--
One Thing You Can't Get Along Without
Have It Flowing Hot from Your Faucets
You can of course, heat it in the teakettle, if you wish, just as you can light your home with a flickering candle. But there's a newer, better, more efficient, labor-saving way and housewives who value their time and strength will accept no other method in their homes.
A Gas Water Heater.
providing a real hot water service will be the biggest possible boon to your home comfort. It will give you hot water when you want it and where you want it without fuss or muss and at a cost of but a few cents for a tubful.
We will gladly give you full particulars.

Everyone
should spend at least one vacation in "The Land of Wonders" — Yellowstone Park—and see sights and scenes the like of which do not exist elsewhere. By the way, this is the Golden Anniversary of Yellowstone — President U. S. Grant signed the act of dedication of Yellowstone "For the Enjoyment and Benefit of the People," on March 1, 1872.
Briefly, the attractions are—an incomparable climate, wild animals of numerous species living their natural life (Yellowstone is the largest wild game preserve in the world); magnificent forests; wild flowers of brilliant hues, in great variety and profusion; lakes, rivers, waterfalls (the Great Fall is almost twice as high as Niagara), innumerable rivers and creeks; geysers, mud volcanoes, hot and mineral springs and exquisitely colored pools; mountains and canyons; wonderful hotels, bungalow camps, an automobile ride that has no counterpart in all the world and—the Cody Road, through the Buffalo Bill country, which has been called "the most wonderful ninety miles in America."
Why not go this year? Take the family! Decide when, then let me make your reservations so you will be sure of accommodations. Ask me how to include Colorado without added rail cost.
