HEALTH

should be the first consideration in the selection of foods for the table.

As a people we do not eat salads frequently enough. They should be served at least once a day.

RICHELIEU THOUSAND ISLAND DRESSING is a blessing to the public because it is especially well adapted to those salads which contain vitamins most abundantly.

It is as delicious as the best home-made product and think of the convenience! It is always ready to serve.

COAL

We can listen to you TODAY

Maybe we can't in JANUARY

Pleas for prompt delivery of coal in January may be in vain, when cold days come.

There is no denying that the fuel situation of the nation is fast assuming a serious aspect with the continued deadlock between coal miners and operators.

Even though the strike were ended tomorrow and all mines resumed full-time operation, there would still be an underproduction throughout the winter.

Order Coal now. It will be an act of wisdom. Deliveries will be slow

at the best, but if you order now it will help us make an estimate of the fuel needs in Downers Grove. We are going to use every power within our means to protect our customers and we don't want a one of them to be cold next winter. Place your order today.

Don't gamble your next winter comfort against the chance that coal will be cheaper when the strike ends.

It is possible that it will cost you MORE before the winter is ended. **ORDER TODAY.**
