**A Business Coupe of STEEL**

Dodge Brothers offer to the business public of America an entirely new principle in Coupe body construction. From framework to window mouldings the body is built of steel. It is the first all-steel closed car ever marketed. This design anticipates every possible requirement of commercial travel. It insures unusual quietness—unusual grace—unusual stamina. It has made it possible to give the Coupe that same lustrous baked-on enamel finish for which Dodge Brothers open cars have long been famous.

The upholstery is of genuine leather—leather that will wash and wear. The seat is wide and comfortable. Car-

rying compartments are accessible and spacious. The car is equipped with a heater, window levers, windshield cleaner, cord tires, Yale door locks, and every other appointment necessary to the owner's comfort and protection.

Built inside and out to withstand the wear and tear of everyday use, it retains the same lightness and beauty of line which you are accustomed to look for in Dodge Brothers Cars.

It is the Business Coupe which business people the world over have been expecting—from Dodge Brothers.

THE PRICE IS \$980 f. o. b. DETROIT
