 2:00 p. m. Sunday School.
 Old Testament stories discussed and applied. All children welcome.
 2:45 p. m. German Service.
 Next Sunday's theme: "The Pharisees and the Publican, representing two classes of church attendants."
 The one full of pride and vain glory, comes to tell the Lord what a good man he is; the other repentant and humble, comes to cast himself on God's mercy alone. The one comes to prove himself chief of the Pharisees; the other, to confess himself chief of the sinners. The one went home a child of wrath and an heir of hell; the other justified, a child of God and an heir of eternal glory. How do you come to church? Probably you do not attend at all. In that case there is a seat and a warm welcome awaiting you at our services, which are being held in the Congregational Church every Sunday afternoon. Come and get it.

Why It's Cheaper To Do It With GAS

THE use of GAS is economical because the consumer buys 100 per cent fuel direct from the manufacturer with the usual middleman's profit eliminated.

GAS being 100 per cent fuel, purchased direct and the volume used subject to instant regulation by the consumer, there is no waste—no useless burning—no heat to pay for which you do not want.

Gas--Where and When You Need It

In the home GAS meets the requirements of the housewife efficiently and economically, for lighting, cooking, baking, ironing, washing and heating. The thrifty housewife knows the economy of using Gas; she knows that she pays only for what she burns, after she burns it. The greater use of Gas is in tune with the eagerness of the housewife to hold down her household costs. Service First—is a maximum of the Gas Company, to the fulfillment of which every working capacity of our employees is daily rededicated.

GAS for heating water solves the problem of many building owners and tenants. No soot—no smoke—no odor—no waste—always ready.

To the manufacturer Gas Service offers reliable, even heat, eliminates the costs of hauling raw fuel, disposal of ashes and labor incident thereto.

The proof of Gas service efficiency is improved production. The responsibility for delivery of your fuel supply uninterruptedly and with desired volume is assumed by a properly equipped organization of accepted reliability.

GAS for industrial use always meets your requirements—in any volume—at any time—in any place. Gas service fits perfectly whether your production program is increased or cut down.

GAS offers immediate saving. It's a flexible fuel. It's efficient.

YOU CAN DO IT BEST WITH GAS

How's Your Battery's Health Today?

Maybe you've noticed that it isn't turning the motor over as strong as it might, that it hasn't quite the pep it used to have, that it seems to be just a little "off its feed".

That's a signal that your battery needs the kind of attention we give—and probably needs it *right away!*

Never mind if it isn't a Willard. Bring it in anyway. Here at Battery Headquarters we've had experience in fixing all makes of batteries—and we give them all *exactly* the same attention.

EAST GROVE LOTS FOR SALE

To those renting this may be of interest. We have East Grove lots, 2 or 3 in a place with good street trees, up to 30 years old, convenient to the station, with 50 trains, with water, gas and electricity going in, within the new village, and school district, where there are neighbors, and stores, good roads and telephone service; Chicago and village stores deliver; most desirable lots at \$150 per foot and others as low as \$150 per lot, on terms of \$25 to \$50 down, then \$10 per month, or other terms to suit, where you can build a garage or house, and save the rent you now pay, applying this to buying instead of renting.

Fredenhagen's Agency owns several hundred lots, all are clear with a good abstract showing a good title, which goes with the land, that you can look over, and suit yourself as to location, price and terms, and if you are in time before the zoning ordinance is passed, you may build as you please too, otherwise it may be different, and the prices higher.

How to start. Come to this office and select your lots, tell us what terms you need, and make a start, and do it now, or buy something ready built, if we have it, on easy terms too, which we will try and arrange.

Buy now while prices are low, and before the many improvements now going in double the price, which is sure to happen.

We have many satisfied customers now living in their new places to refer to and to give you an idea how they do; all save rent and will soon own their homes clear.

Downers Grove is growing, as it never has before and your chance is right here now, will you take or leave it? Come and see for yourself and be convinced.
