**SAVE STEPS!**

You've no idea how many steps you take back and forth to the stove changing irons. Together with the strain of standing several hours, a half day's ironing is about the most fatiguing work a woman can do!

Save these scores of slow, heavy steps to and from the range. Use a Gas Iron and see how much quicker and easier the work moves along. You won't feel so "done out" when the ironing is completed.
