

**BOWLING ALLEYS  
OPEN FOR SEASON  
ON SEPTEMBER 23**

Smoker, at Which Time Teams Will be Selected for Leagues, to be Held Soon

Owing to the continuance of the hot weather the bowling alleys will not open until September 23. The annual smoker will be given about the 21 and invitations will be mailed to the bowlers later.

The smoker will be given for the men bowlers only. A little later a luncheon will be held for the ladies as it would be impossible to organize all the leagues the same night.

Teams should be lined up now so they may be entered at the smoker at which time all team entry fees must be paid. This is done to avoid the trouble which occurred last year when two teams failed to take interest enough to start at the opening of the league. The teams will be composed of five men each.

The alleys are in first class condition and new balls and new pins are here ready for the opening. All in all it looks like a good season for the bowlers and fans.

While there will be new faces on the drives this year, the following 1921 averages are printed so that the teams may be well balanced.

HEATS—VENTILATES

A Warm Air Heating System is as durable, trouble-proof and satisfying as any standard high-grade heating system. But it has this added advantage: **IT VENTILATES! It stands for HEALTH!**

Such a Warm Air Heating System as we recommend will renew the air in every room in your house on an average of once every twenty minutes. Poisonous, breathed-over air forced out—pure oxygen-laden air rushed in to replace it. And headaches and misery of oxygen starvation banished.
