ties bought indiscriminately. Therefore, in taking any tips from Wall Street to buy railway securities use great discrimination to select those which cannot be adversely affected by a great development in trucking or those whose management is far-sighted enough to reduce their mileage to only such as is profitable, selling the rest for trucking highways.

Continued activity in building lines has brought general business to a new high level for the year. The index of the Babsonchart now stands at but 5% below normal—an improvement of 2% since last week.

To the Men Who Carry Accident Insurance AND AS WELL TO THOSE WHO DO NOT

The Metropolitan Life Insurance Company is now writing Health and Accident Insurance. As might be expected of the Greatest Life Insurance organization in the world, these contracts are the most liberal in indemnities and extent of same, of all casualty insurance written by all other companies.

This form of insurance protects your income while living and unable to work either from sickness or accident. Liberal indemnities also for loss of limbs or sight, surgical operations, broken bones and slight accidents that do not disable. Benefits doubled in case of hospital confinement, or common carrier accidents.

The Metropolitan is the only company which divides the profit among policy holders of this form of protection. This fact alone has decided thousands of thinking men to renew their Accident and Health Insurance with this Company.

Give me a chance to explain this proposition to you when the time comes to renew. You will get a better contract at a lower rate and the only participating Health and Accident policy written. Rates and miniature specimen policy will be submitted upon request.

of eighty. She is Mrs. John Johnson, of Tripolia, Brewer County, Iowa.

In 1845, Mrs. Mertz, with her husband and several children, left their native state and started west. They passed by a small village on the west shore of Lake Michigan, but the mud holes and swamps were so deep that Edward Mertz thought Chicago never

would amount to much. He had six hundred good Pennsylvania dollars and a good team of horses, and didn't care to lose either of these tangible assets in the intangible hopes of perhaps a city some day. He was not a get-rich-quick town boomer anyway, but had the old style idea of working for what he got. With this in mind and hunting for good farm land, he passed on west and located near Downers Grove.

Mrs Mertz joined the Evangelical Assembly church when a girl of ten, and has been a member for ninety years.
