

# NEWSY NOTES FROM LISLE AND BELMONT

## CONGREGATIONAL CHURCH

A. L. Allison, Pastor

Services for Sunday, November 19.  
Sunday School 10:00 a. m.  
Morning Service 11:00 a. m.  
Evening Service 7:30 p. m.  
Sermon for the morning service: "The Parable of the Great Supper."  
The evening service theme will be: "Christian Song and the Heaven World."  
A song service including a special duet is planned.  
Wednesday 7:30 p. m., mid week meeting.

Mrs Charles Miller of the Naperville road entertained the Ladies Aid Society at her home Thursday afternoon. The ladies are busy these days sewing for a bazaar they are planning to hold early in December. Christmas gifts of all descriptions will be on sale at a reasonable price.  
Mrs E Yagle has been appointed chairman of the Red Cross drive in this vicinity. She entertained her committee members, Mrs Henry Grunhaus, and Miss Henrietta Riedy as well as Mrs Guy Bush, of the Grove at lunch Saturday.

Mrs. Horstman of Hinsdale spent Friday with Mrs Fred Schultz.  
Mrs W Plumb, Mr and Mrs Arthur Porter and Rosella, were among the guests of Mr and Mrs J Campbell at the christening of their son Clifford, Sunday afternoon. The service, conducted by the Rev. J. Alfred Nansen, was beautiful and impressive. At 5:30 the guests enjoyed a delectable supper.

Mrs E Yagel was hostess to a party of eight at lunch Monday noon.  
Rosella Porter took part at an entertainment given at the Butler school Thursday evening and was the guest of Ida Sheldon until Friday. Saturday evening she whistled at the Maywood Masonic Temple and visited Mr and Mrs S F Bacon, former residents here. Friday evening Mrs A Porter and daughter visited Mrs Jessie Richter of the Grove.  
A meeting of the local M. W. A. camp will be held at the hall Tuesday evening. Members please take notice.

**Radium in Constant Demand.**  
New uses for the element radium are being discovered almost daily. A company was formed recently for the manufacture of luminous house numbers, bedroom slipper buttons, theater seat numbers, etc. Luminous fish bait and glowing eyes for toy dolls are at ready being turned out.

THE REPORTER—\$2.00 PER YR.

Phone 91  
**MILK and CREAM  
COTTAGE CHEESE**  
— I C E —

## SOUTH OF LISLE

Mr and Mrs Arthur Greene entertained friends from Naperville at dinner Friday evening.

Miss Agatha Faulhaber had as a week end guest Miss Kathryn Griffith.

Mr Edward Pfaff of Chicago called at the Henry Faulhaber home Saturday to offer his congratulations.

The Lawrence Pelling family have moved to Downers Grove. We are sorry to lose them, they were such fine neighbors.

The Charles Leverenz family have moved on the Pelling farm.

Watch for the date of the next meeting of the Goodrich School and Community club. Very interesting meeting is assured.

Mrs Jack Griffith and daughter spent Tuesday with Mrs Earl Minear.

Join the Red Cross and help the suffering. Your dollar greatly helps.

The Lee Littleford family are in quarantine for scarlet fever.

Mr John Doerr and sister, Katie, motored out from Chicago for a short visit at the Eleanore Schmitt home on Sunday.

Mr Adam Dieter is ill with tonsillitis, which adds greatly to his suffering.

The Pfaff school will have a box social and entertainment on Wednesday night, November 22. Everybody welcome, all the ladies bring nice lunch boxes. Am sure there will be lots of handsome men. Come out and help the school.

**Ages of Common Trees.**  
The heart of the common oak, it is said, begins to rot at the age of 300 years, so even when an oak is undisturbed it rarely lives much beyond 500 years. A larch may live 275 years, a silver fir 425, and a pine over 500 years. The yew has a remarkable power of resisting time's ravages, and may survive for 1,000 years or more.

**Wise Wild Pussy.**  
Mark you well that the pussy denizen of the forest seldom has toothache and never pyorrhea. He uses his teeth in a natural way on natural foods.

**Small, but Powerful.**  
Germs are not little animals. They are tiny plants, the smallest living things known. They are sometimes called bacteria or microbes. You might have some idea of the size of a germ if you could take a grain of sand and split it into a million pieces. Of course, some germs are larger than others, but the largest cannot be seen without the aid of a powerful microscope.

**Therefore, Why Worry?**  
A hundred years' fret will not pay a penny of debt.—Victor Hugo.

**Hongkong an Island.**  
Contrary to popular belief, there is no city of Hongkong. That well-known name belongs to an island of 32 square miles extent which lies off the south coast of China. It is also commonly applied to the port. The British-owned city of 600,000 inhabitants on the island is officially "Victoria."

**Give Them a Chance.**  
We do not believe in firing serenaders for disturbing the peace. They should either be encored or shot, according to the gravity of their occupation.—Kansas Industrialist.

# Just Good Things to Eat for your Thanksgiving Dinner

In addition to the necessary Table Supplies we will have for your selection fresh Fruits and Vegetables, Nuts and Candies.

Jones Dairy Farm Sausages and Sliced Bacon.  
Lyman's Honey in one, two and five pound pails

## IS CHIROPRACTIC SCIENTIFIC?

Science is classified knowledge. It does not depend upon chance, or luck, or guesswork. If a method is scientific it must work out—not sometimes, but

ALL the time. No method of combating disease has ever deserved to be called scientific until Chiropractic was developed. The treating of disease by remedies is an

ART in which skill in diagnosis and in predicting the rather dubious reaction of the patient to the remedy

MAY bring results.

Chiropractic is a

SCIENCE The bonafide Straight Chiropractor is trained to detect spinal abnormalities by hand and verify by X-Ray until he knows, with absolute certainty, the position and relation of the spinal bones. His methods of adjusting these are so exact, so specific that he can be absolutely positive that the adjustment will be followed by just one result—the utmost effort of

NATURE to cure. The only element of uncertainty left—the only reason why a Chiropractor cannot promise a complete cure to every patient in the world—is the possibility that the case has gone so far that

NATURE herself will not cure it, which means that no treatment on earth would be of any avail.

Chiropractors do not depend for their success upon the uncertain elements which form a basis for other methods. The very simplicity of the system makes for accuracy. For instance, the Chiropractor knows—not guesses—but

KNOWS

—what organs in the body are weak or diseased after he has analyzed the spine. Conversely, he also knows which organs are healthy and sound. His word is the word of authority.

There are things about disease which he cannot find out in this way, but these things are not essential to the cure, and here again the scientific nature of the system shows it self. He knows, with a certainty from the beginning, what is hidden from him. He never mistakes a guess for a fact.

It is because Chiropractic is exact, specific and definite, that Chiropractors achieve a higher percentage of results than any other profession.

If you are suffering with some bodily ailment, no matter what it is, come in and consult with me about it. Don't delay, come today and start yourself on the road to health.

### "STOP THAT THIEF"

SCENE—MAIN STREET in any town in America.  
CHARACTERS—Lady yelling madly that her purse has been stolen, thief running down street, various citizens starting in pursuit.  
TIME—Most any time that opportunity offers.  
MORAL—Don't take any chances of losing money by carrying it in cash. Open a Checking Account in this bank and LAUGH at PICKPOCKETS and PURSE SNATCHERS.  
ACTION SUGGESTED—DO IT TODAY!

**Farmer's and Merchant's Bank**  
A State Institution under State Supervision  
Established 1892

## Join the Trojan Xmas Club Now! DO YOU LOVE HER?

The following editorial is reprinted from the Youngstown Telegram:

### WIVES

Someone—probably a statistics shark who had had an argument with his wife—figures up and finds this:

The average housewife in 30 years cooks meals for 150,000 people and devotes 100,000 hours to sweeping, scrubbing, dusting, mending, etc.

For this she gets paid less actual money than the lowest-paid unskilled workman, the keeping house is more than a skilled trade—it is one of the fine arts.

Heaven help us if the mothers ever strike for an eight-hour day or time and a half for overtime.

No man—not even an editorial writer—is brave enough to figure up the hours of toil spent in doing the washing, and then publish the figures for our wives and mothers to see.

**\$2.00 DOWN AND \$2.00 PER WEEK UNTIL CHRISTMAS PUTS A TROJAN IN YOUR HOME**

**JOIN NOW AND SAVE MONEY**

This is not an advertising scare, it is a fact. Copper and steel have advanced and all machines are sure to advance SOON.

Ask those who use Trojans, don't take our word, or better still, try one in your own home without any obligations whatsoever.

## Words of Cheer and Comfort

If wife, mother or daughter is ill and you are obliged to be absent, what a comfort it is to talk home every evening by long distance telephone! Your own anxiety is relieved and your loved ones are cheered by the sound of your voice.

"Station-to-station" long distance service, developed recently by the Bell System, meets situations of this kind exactly. Just call your home by number and tell the operator you will talk to any one who answers.

When the call is answered, the "station-to-station" rate, which is about twenty per cent lower than the "person-to-person" rate, applies. You can then talk to all the members of your family, one after another, on the one call, if you wish.

Evening rates on "station-to-station" calls, which are about one-half the day rates, become effective at 8:30 p. m. After midnight the night rate, about one-fourth the day rate, applies.

**ILLINOIS BELL TELEPHONE COMPANY**
