Listen Folks! "Uncle Joe" Speaks--He Knows

"In the rush for the almighty dollar, Americans forget the blessings they enjoy," says "Uncle Joe" Cannon, veteran statesman of national reputation.

"Why, back in my home town long years ago, before the days of gas, electricity, the telephone and the street car, the folks were amazed at the sight of the first kerosene lamp in a store window. When gas lighting came, people scoffed at this marvel, just as some do today in discussing the wonderful services rendered by

our public utilities. "Just see what we enjoy today in life's comforts and conveniences! Look at the revolutionary changes gas and electricity and the other public utilities have wrought. These are the happy days, but so few of us realize it.

"Most prosperous, most resourceful of all nations. the citizens of these United States are blind to the many advantages for which they should be thankful."

The Gas Way Is the Best Way.

Winter Time Suggestions

dust before you put up your car for the winter come in and see us, we can tell you a lot of things to do that will help keep the car looking like new.

Our first suggestion would be: store your battery by all means, We have plenty of space for your battery; it will be locked after just as often as if you were driving the car.

We keep it fully charged, distilled water is put into it regularly. Readings are taken at regular intervals. The temperature of the room is always normal-no chance for freezing.

We always inspect a battery completely before storing it. If repairs are necessary we will tell you all about it, together with the price of repairing.
