General Pershing Goes And Gets 'em

Gen. John J. Pershing would have been quite a boy in the front line trenches with a rifle—had he not been busy bossing our A. E. F. in France. Last week on the lower Mississippi he went duck hunting with Gov. Parker and Bernard Baruch, using a 10-gauge gun, dropping his first eight birds without a miss. Then he posed for this exclusive photo.

Does Your Kitchen Range Show Signs of Old Age?

MANY persons who would ridicule a 1916 model automobile are using out-of-date broken-down ranges 20 years or more old, trying to obtain modern, efficient service from them.

It simply can't be done. Old age plays just as much havoc with a range as it does with any other appliance which is used under similar circumstances.

To obtain full economy and efficiency from your gas service you must summon to your aid modern appliances, built according to present day tastes and requirements. Gas-burning equipment 20 years old is an eyesore. Furthermore, it will never make your workday easier, shorter and happier.

Use gas the modern way. Give your home a chance. Install in it the kind of gas equipment that will enhance its beauty and give you the best of service in return.
