

Films for the Family

ALTHOUGH National Film Board films are produced for information and educational purposes, many of them have a high entertainment value; and those who are interested in programming entertainment films for children may find the following list very helpful. They will also find that many of the films, especially those marked for the age of fifteen and over are popular with adults, too—an important consider-

ation for Institutes providing "Film Nights" for the whole community.

The list was prepared for the Canadian Centre of Films for Children by Nick Spillicks, Education Officer, National Film Board, Montreal. It includes most NFB films to date suitable for children indicating the age ranges for which each is suitable.

Most of these films are available from local film libraries. All are available from the Canadian Film Institute, 1762 Carling Ave., Ottawa, on a service charge basis.

SUITABLE FOR AGE RANGES
