Sponsoring Children Continues

SINCE the article "To Save the Children" appeared in the last issue of Home and Country, other Women's Institutes have reported their experience in this project.

Conroy writes that at that time Tassia was seven years old, very weak and undernourished, living with her parents and five brothers and sisters "in a miserable single room." Both father and mother are in poor health, the father unable to work at his shoemaker's trade. At Christmas time the Institute sent a large parcel of clothing, books, candy and a doll; and some time later they had a most appreciative letter from Tassia triling what "joy" this had given the whole family. Mrs. Conroy adds: "Needless to say we are thrilled and eager to send a parcel for her birthday in September. When we have heard from her again we are going to send a cheque for \$60 to pay for another year's care."
