JUNIOR INTERESTS

The Junior Directors, Mrs. Thomas Drayson and Mrs. James Coneybeare were unable to be present and Mrs. D. Cunningham was the alternate. The Junior Institute Report prepared by Mrs. Drayson was read by Mrs. Cunningham. The opportunities we receive in our junior work better prepare us to meet the challenge of the future. The opportunity in rendering service, meeting our responsibilities and obligations with confidence and unwavering faith makes us realize how fortunate we are to have the choice to work with senior women.

Peel County expects to form a new Junior Institute, Dixie Lane. Most of the clubs have advanced program planning six months of the year. Separate business meetings are held with a joint session of fellowship and recreation for the Junior Institute and Junior Farmers. Each meeting is co-ordinated to include the

theme roll call, topic and motto. Some of the programs included quilting, interior decorating, table manners, flower arranging, choosing china and silverware, Adelaide Hunter Hoodless Homestead. Some roll calls were "My bedroom colour scheme", "A home hazard and how to eliminate it", "My favourite hobby", "My future goal." Mottoes included "As the twig is bent, so grows the tree", "Good health is precious beyond wealth and wisdom", "The hardest thing in the garden of life is digging out the roots of evil."

Some worthwhile projects carried out included helping needy families, sponsoring 4-H Homemaking Clubs, making stuffed toys for the Children's Aid, making baby layettes for the health unit, working for Freedom from Hunger.

Mrs. James W. Coneybeare gave this report for the girls in the Junior Farmers' Association:

The twentieth year of the Junior Farmers of Ontario has seen many activities. The annual conference in January included a special ribbon cutting ceremony as the "kickoff" for the celebration year. At the annual Guelph conference, Catherine Ebshamp, a Dutch social worker was a special guest. Catherine now is in West Pakistan working on an agricultural rehabilitation project. Representatives from each country at the Provincial Leadership Forum at Geneva Camp may include a boy and a girl. This event creates enthusiasm as well as giving leadership training.

Debates, fashion shows, speakers, curling bonspiels were enjoyed. The provincial Drama Festival, public speaking and music competitions were again most successful. At the Royal Winter Fair a display booth depicted phases of junior work. This organization is assisting our rural youth to meet young adulthood with confidence and a cultural perspective.
