

Institute for the Family, said, "A nationwide attempt, based on scientific methods, should be launched to enrich the culture of the family." A panel discussion on "Guided or Misguided" inferred that school boards and teachers are losing touch with school children.

International Scholarship Fund

Last year three young ladies were sent to Mysore, India, to study technology and food preservation, etc. and then they returned to their native land to pass on the valuable information gained.

At the annual board meeting, directors had voted to send three girls again at an approximate cost of \$800.

At the spring board meeting, members learned that Miss Natvidad, Santiago, and Miss Manuela Buensucesco of Manila, Philippines, are now studying at Mysore in analysis, standardization and quality food control program, but costs have risen to \$300 each. In view of the great value of this training to those in developing countries the board directors voted to send a third girl who will be starting training at Mysore, India, shortly under the Canada Mysore Project and Canadian Freedom from Hunger Foundation with interest from the International Scholarship Fund.

Safety Report

Mrs. W. Bradnock, Convener, reviewed the twenty reports received from Safety Secretaries across the province, telling of their Safety programs. Many letters asked for Safety information and hints on planning a meeting. Safety hints to avoid accidents in the home were outlined and a Safety booklet distributed to each board director.

This year's topic of study is "Safety in the Kitchen" but any activity or program on Safety should be reported to the provincial convener for Safety, Mrs. Bradnock, Auburn.

Cultural Activities and United Nations

Considerable discussion ensued re the reporting of cultural activities and the United Nations at branch level. It is not necessary to have a convener or secretary at branch level for Safety, Cultural Activities or United Nations but your branch secretary-treasurer or Citizenship and Education convener should report your activities under these headings to the F.W.I.O. secretaries in order that information can be passed on to the national level or conveners. So please note: Send answers to Safety Quiz or reports to Mrs. Bradnock as above; Cultural Activities to Mrs. R. W. Yungblut, R.R. 1, Fonthill; and United Nations to Mrs. P. Radbourne, 645-10th St. E., Owen Sound.

Board Directors' Meetings

Board directors reporting on their individ-

ual meetings with their district officers felt these "get-togethers" had merit not only because of the information to be presented to the districts and through them to the branches, but also because they were able to get better acquainted and thus promote fellowship and unity in a common purpose. Different visual methods, such as panel discussions, flip charts, posters, mimeographed notes and questionnaires were used to present the board meeting business and other information. From the discussions following, new ideas were gleaned; i.e., the purchase of loose-leaf binders for conveners' reports to be passed on to successors.

To Our Founder's Memory

As reported previously, the name of Mrs. Adelaide Hoodless was accepted as one of the five deceased Ontario women to be placed on the honour roll at Expo. F.W.I.O. submitted Mrs. Hoodless' name and the acceptance committee wrote this accompanying sketch: "1858-1910 — Adelaide Hoodless, born in Brant County, was in the vanguard of many movements in the interests of women including the Victorian Order of Nurses. She will be remembered longest for founding the Women's Institute and for her lifelong crusade for education in homemaking which led to the establishment of Macdonald Institute and the Department of Household Science at the University of Toronto.

Biography of Adelaide Hoodless is available from F.W.I.C., Room 28, 46 Elgin Street, Ottawa.
