

## INTERNATIONAL

**Camden East — Roll Call —** "A Bit of Information About India". The main feature of the meeting was an address by a woman who lived in India. She told the members that in the village where she lives the people live in homes constructed on bamboo poles with mud packed walls and an overhanging straw roof. Here the transistor radio is of educational value as well as a status symbol but through listening to the radio the villagers have learned to boil the water taken from the river and so the number of cases of malaria has dropped sharply.

**Markstay —** Stories from other countries provided a program of interest to members of this branch.

**Balsam Hill —** A lesson in the French language provided the members with an enjoyable international meeting.

**Malcolm —** A feature of an International meeting was the U.N.I.C.E.F. film, "Assignment Children".

**Willow Grove —** The roll call for a meeting with the United Nations as the topic was "Show an article from a member country in A.C.W.W."

**Fort Frances —** For the international night program each member brought a souvenir of another country.

**South Line Brant — Paper —** "An example of good public relations is when one organization of a town or community cooperates with others in sponsoring a project and working together for the good of the community."

"Public Relations is having a sound program aimed at moulding public opinion, the making of good friends."

**Good Neighbour — Roll Call —** "One thing I would like the public to know about the Women's Institute."
