Ontario Food Council

Mrs. Russell Morrison reported to the Provincial Board on a Field Trip she took with some members of the Consumers' Committee of the Ontario Food Council in June to Schneider's Meat Packing Plant in Kitchener, Beatty Turkey Farm at Thamesford, Omstead Fish Hatcheries, Marinetto Marsh at Leamington and C. P. Maxwell, Essex. Comparisons of prices paid growers and retail prices charged were given to illustrate how the public is misled into believing growers are paid more for their produce than they do actually receive. (Example, grower got \$1.25 per crate for cauliflower that retailed at \$4.68.) Mrs. Morrison and Mrs. J. Rumble attended the Food Products Day at the Canadian National Exhibition. The display Carousel of Food at the Royal Winter Fair was set up by marketing boards.

Mrs. H. Noblitt, also a member of the Consumers' Committee reported a survey carried out to determine the consumers' reaction to the use of coloring in canned cherries and inquiry by members of committee about sanitation practices in back rooms of supermarkets meat cutting areas. Food comparisons re turkeys were outlined stressing that Canadians are the largest consumers of turkey in the world. In the last ten years the price has dropped from 60-70 cents per pound to 40 in this specialized operation of today where up to 25,000 turkeys can be handled by one man.
