

**Yarmouth Glen W.I.** enjoy nature slides and commentary by Jon Mansell. He captivated the group with scenes familiar to all such as a sunrise, a ground sparrow's nest, a goldenrod patch, frost patterns on a window pane and Kettle Creek at various points. From the tip of the Bruce Peninsula to locations in Northern Ontario, landscapes of rocky escarpment, caves and wooded shore lines to infrequently travelled rivers and streams, all projected the beauty of nature.
