REWARDING EXPERIENCE

Efforts of the 4-H Homemaking Club leaders are rewarded when club stories are written at the end of a project. We thought you would enjoy a few examples.

Sandra Williams from Daek 2 club—Temiskaming. "I am writing a letter at the end of this unit, as a token of thank you. This is my last year in this area and perhaps my last 4-H unit. In June I will have a home of my own, and I know that I feel much more confident, had I not completed so many 4-H courses. 4-H members have encouraged me to take a responsible position within an organization . . . I hope some day to lead a group . . ."

Betty Madter (nee Noble) who completed 12 units in Simcoe County. "I started my 4-H Homemaking Club career, probably more because it was the thing to do in our community than because I hoped to get something out of it. Now as I look back I am glad that it was the thing to do . . . I often wear my three 4-H pins to school and students ask what they are. After explaining that I do not raise calves or grain, I find them very interested in knowing opportunities exist outside school to develop talents like cooking and sewing . . . Although she probably won't see this book, I would like to thank my Mother who helped me struggle through the first projects . . ."

Judy Capling, Haysville II club, Waterloo Region says, "It gives me great satisfaction when people say something nice about my clothes that I have made or about my cooking. I feel that my responsibility now is to pass on to others what I have learned through my experiences in 4-H . . . I plan to keep all my 4-H books in a handy spot for easy reference . . . In a way I'm sorry to be through 4-H . . . I'll treasure my 4-H experience . . . so much a part of my teenage years."
