**UNIVERSITY PRESIDENT**

Dr. B. C. Matthews, University of Waterloo, said the first day of the Conference will go down in history because it is "Sun Day". It's a celebration of the seemingly inexhaustible supply of energy, however, the energy apparently is limited, but will take about a billion or two years to take effect.

In the meantime the University of Waterloo carries on with its degree granting programs, its off-campus programs for the approximately 19,000 students. The audio tape program resulting in degree granting has caught on. The University and W.I. have one thing in common, that of promoting good citizenship.

*Where do we go for discussion group sessions? Spun on the campus of the University of Waterloo are delegates L-r Mrs. Alfred Burns, Jean Brumpton W.I., Oxford South District; Mrs. R. I. Skene, Northwestern Area President; Mrs. Gordon Johnson, Crumlin W.I., Middlesex East District.*

*Mrs. Herb Maluske shows some of her Kenya souvenirs to Mrs. Ralph Wood, Kintore W.I., Oxford North District. The articles and mementoes were collected during her visit to Kenya, while attending the ACWW conference.*
