

THE DOG COLLAR

Starting from the front, double the scarf around your neck and bring the ends back to the front. Loop the ends over one another or knot them, whichever you prefer.

THE TIE

Make the left end shorter than the right (a). Hold the left end with the left hand and wind the right end around the left two times (b).

Still holding the right end in the right hand, pull the right end up through the "V" (c) and pull down through the loop (d).

Hold left end in left hand and push knot up with your right hand (e).
