Women's Health Bureau

The Ontario Ministry of Health now has a Women's Health Bureau. The bureau's mandate is not as an information centre, but rather to promote women's health issues within the government. Also, the bureau would like to hear from outside women's groups who need help making government contacts. For instance, if a group wanted to set up a women's health centre in a hospital setting, the bureau could help them contact the right ministry people.

Jessica Hill is the manager of the bureau. She can be reached at 416 965-0460.
