

# Safe Kids Week 2007

## May 28th – June 3rd

Drowning is the second-highest cause of injury-related death for children ages 1 to 4. For this reason, the 2007 campaign will focus on drowning prevention. The campaign will emphasize safety for backyard pools, which carry serious risk for injury and death.

As a partner of Safe Kids Canada, the ROSE Program is urging you to get involved! Your participation in Safe Kids Week 2007 is crucial to the success of the campaign. How you participate is up to you. From something as simple as distributing the free Safe Kids Week resource to organizing one of the recommended events or activities, all contributions are valuable and appreciated in the effort to reduce child injuries.

If you require assistance in planning an event or want more information on how your Branch can help, please don't hesitate to contact us at [roseprogram@fwio.on.ca](mailto:roseprogram@fwio.on.ca). Additional information will also be available online in WI Chit Chat and in The Connecting Link.

### Good Idea!

A letter and resolution from the Nurses Association on Female Genital Mutilation will be placed on the website. Members are encouraged to access the information and take it to their local MPP.

If you do not have a computer your local library will help you create your own hotmail address that you can use at the library and assist you to access the website. Another suggestion is to ask your children or grandchildren to help you. They would probably love the opportunity to show you the latest in technology!

### Fundraiser

FWIC is making a 2008 calendar to be available for sale in the fall of 2007. The theme will be "Women of Today" with a picture of one WI woman in a bathing suit from each province demonstrating an industry such as farming, fishing, lumbering, etc. A clear picture 4"x 6" or larger should be sent to Elsie Stephenson by **May 15, 2007**. Pictures will not be returned.
