Disposition of the Resolutions

By Anne Dyas

Re: Genetically Modified Organisms (GMOs) - That FWIO request the Federal Minister of Health to enact legislation that requires any food products containing genetically modified organisms (GMOs) be clearly labelled in order that consumers can make an informed choice.

The Hon. Allan Rock, Minister of Health Canada, stated that "Health Canada conducts a thorough safety assessment of each biotechnology-derived food before it enters the marketplace. Health Canada and the Canadian Food Inspection Agency (CFIA) share the responsibility for federal food labeling policies in Canada. Health Canada is responsible for setting food labeling policies with respect to health and safety matters (ie. nutritional content, allergens, special dietary needs, etc.). This applies to all foods, including foods derived through biotechnology.

The CFIA is responsible for the development of non-health and safety food labeling regulations and policies. "Specifically, for protecting consumers from misrepresentation and fraud with respect to food labeling ... and for prescribing basic food labeling and advertising requirements applicable to all foods (ie. food ingredients and components...)"

Further information is available by writing to the Office of Food Biotechnology, Sir Frederick Banting Research Centre, Address Locator 2204A1, Tunney's Pasture, Ottawa ON K1A 0LA, website: www.hc-sc.gc.ca/food-aliment

Or have a look at the CFIA website: www.cfia-acia.agr.ca

Minister Rock did not even suggest the Federal Government would look into mandatory labeling. At present, labeling foods containing GMOs is voluntary. Information from other sources shows that AgCare Canada, 45,000 plus strong, does not support such labeling.

Anne Dyas is the Lobbying Coordinator for the Federated Women's Institutes of Ontario. She can be reached at RR 3, Cochrane ON P0L 1C0, Phone: 705-272-6886, Fax: 705-272-3425 (attention Anne Dyas).
