

## Simcoe Area Skids Along

This past winter, the Simcoe Area Education Committee organized a "Skid School" in Midland. The Twin Lakes Motor Club (TLMC) prepared a parking lot so it was slippery like ice, and then trained twenty WI members how to control their cars during a skid. They were accompanied by a trainer while they drove and braked to create a skid; another member of the TLMC stood at the opposite end of the lot signalling the direction to take when they entered the skid pad. Pylons went flying as they manoeuvred their cars through the course. After 25 to 30 tries, the women gained confidence and skill.

The FSA is encouraging all field workers to wear the ultra-violet ray sun protection hat. For more information about these suncaps call the FSA toll free at 1-800-361-8855.
