It is my privilege to bring my Fourth year's report to Grey-Bruce Area Convention. I wish to extend my sincere appreciation again this year to all curators at Branch and District levels who have made it possible to again achieve 100% reporting. I also wish to thank Mrs. Emerson, my assistant, for her help and encouragement.

Special thanks to Miss Helen McKercher who has been a "guiding light" to me through the years, and to the Department of Agriculture and Food for their Co-operation and help in the microfilming of our History Books.
