April 4 1994

Dear members of Castleford WI

Thank you for your generous donation towards my Board Directors expenses. It has been an honour and a pleasure to represent Subdivision Three on Provincial Board.

I appreciate all the encouragement, co-operation and support that I have received from you my branch members. I would not have taken this job without the experience I gained through Homemaking, Lifeskill and Leadership Development Courses I had the opportunity to take through WI and 4-H.

I credit the seminars, workshops, district annuals, conventions and conferences I participated in which prepared me to go on to the next level in our world wide organization.

Now it is your turn. If I can do it so can you. Please remember to say yes next time you are asked to do a task or take a position. We have gained valuable leadership training and now it is time to share our expertise.

We have come a long way since Adelaide Hoodless started our organization because her child died due to lack of knowledge. We are a caring people who offer mutual support. We can make a difference if we try.

Thank you for giving me confidence to go on to provincial level and remember that the branch member is the most important part of our organization.

*Sincerely  
Mae Craig*
